### STUDY VALUE OF VOLSTEAD ACT FOR U. S.

Hope to Present Convincing  
Statistics at Next Ses-  
sion of Congress

DISCUSS 3 QUESTIONS

Impartial Tribunals May De-  
termine Advantages and  
Disadvantages

BY DAVID LAWRENCE  
Copyright 1926, by Post Pub. Co.  
Washington—When the never-end-  
ing argument on prohibition comes  
before congress again—as it inevitably  
will—the question of what are and  
what are not convincing statistics will  
be debated.

The latest reports issued by the  
Moderation league declaring that the  
Volstead act has failed and calling  
for a return to temperance, is based  
almost entirely on the theory that ar-  
rests for drunkenness measure the  
effect of prohibition.

IMPORTANT FACTORS  
Several sociological studies are in  
progress to determine other factors  
considered just as important. The un-  
settled questions are these:

1. Where all the arrests before  
prohibition went into effect tabulated?  
How many arrests and others taken  
at station-houses for disorderly con-  
duct were really due to intoxication?
2. How much money was spent in  
saloons throughout the country as  
compared with the amounts now said  
to be expended in the purchase of il-  
licit liquor?
3. How many individual purchases  
of intoxicating liquor are actually be-  
ing made by different individuals?  
How many arrests and others taken  
at station-houses for disorderly con-  
duct were really due to intoxication?

DECISION ON POINTS  
On these points is the determination  
of the advantages and disadvantages  
of prohibition likely to be made by  
impartial tribunals.

The government is in possession of  
some of the facts because the internal  
revenue bureau was obliged to keep  
a record of the taxes collected. There  
has been no enormous drop in the re-  
venue from this source. As yet no statis-  
tics have been produced showing the  
exact quantities of liquor being dis-  
tributed in violation of law. The with-  
drawals of liquor from bonded ware-  
houses for legitimate purposes some of  
which may have been unlawfully sold  
is still growing less each year and  
there is no evidence to show that con-  
sumption of liquor from this source  
compares with pre-war consumption.

IMPORTS BELIEVED SMALL  
As for the illicit importation of li-  
quor through the Canadian and Mexi-  
can borders and from the rum-running  
fleets off the Atlantic and Pacific  
coasts, the government has an ap-  
proximate idea of the amount coming  
in. The total imported is considered  
relatively small considering the num-  
ber of persons ultimately consuming  
the supply.

Officials here do not doubt that  
drinking has increased with certain  
classes and that social evils have ar-  
isen which are directly due to the dif-  
ficulties of enforcing the Volstead act.  
But there is no evidence as yet that  
the total number of persons who spent  
money for intoxicants before the Vol-  
stead act was passed compares at all  
with the smaller number now believed  
to be consuming liquor obtained for  
lawful as well as unlawful purposes.

### A Corpse Is As Dead As A Brick; He's Right, Cal

Washington, D. C.—(AP)—Morti-  
cians are bricklayers to some un-  
named aide at the White House  
and the misunderstanding and re-  
layed to President Coolidge as he  
received 200 undertakers Monday  
left him in ignorance of the oc-  
cupation of the men with whom  
he was conversing. A crowded  
engagement calendar prevented  
the chief executive from know-  
ing the identity of his visitors be-  
fore they began filling past his  
desk.

"Who are these men?" He asked

ed one of the office aides. The  
question was transmitted to Ever-  
ett Sanders, secretary to the presi-  
dent. "Morticians," he replied.  
The recipient of the information  
who was to relay it to the presi-  
dent looked slightly puzzled, but  
by the time he reached President  
Coolidge's desk the problem had  
been solved.

"Back layers," he told Presi-  
dent Coolidge sotto voce and the  
delegation continued past the desk  
to the end.

### MILLER TRIAL NEARING END IN NEW YORK

### German Metal Magnate Is Recalled as Witness in Alien-Transfer Case

New York—(AP)—Five Liberty loan  
bonds with a value of \$40,000 that  
formed a part of the \$391,000 "com-  
mission" paid John T. King for rush-  
ing a \$7,000,000 claim through the  
alien property custodian's and attorney  
general's offices, were traced to Jesse  
W. Smith Tuesday in the Daugherty-  
Miller conspiracy case.

The name of Smith, described as  
Harry M. Daugherty's "man Friday"  
has fitted through the 15 days of the  
trial. It was first mentioned when it  
was testified that Smith helped to ac-  
quaint Richard Merton, German metal  
magnate, with Thomas W. Miller and  
assistants to Daugherty. Then it was  
shown that Smith got half of the \$50,000  
"retainer" Merton gave King.

Tuesday Edward N. Toland, an as-  
sistant in the attorney general's office,  
told how he traced to Smith \$40,000 of  
the bonds Merton gave to King. Smith  
had the bonds sold in 1922 through the  
Washington brokerage firm of W. B.  
Hibbs.

The prosecution called its last and  
eighteenth witness in the Daugherty-  
Miller conspiracy trial Tuesday.

Richard Merton, German metal mag-  
nate who testified he paid John T.  
King, late Republican national com-  
mitteeman from Connecticut \$441,000  
for the release of \$7,000,000 impounded  
enemy shares, was the last witness  
called. He also was the first.

### MAGILL IN SENATE RACE IN ILLINOIS

Three-cornered Fight, With  
New Candidate Known as  
Coolidge Backer

Chicago—(AP)—A three-cornered  
race for the Illinois seat in the United  
States senate to be filled by Novem-  
ber balloting was on Tuesday with  
the entry of an independent candidate  
from the Republican ranks.

Hugh S. Magill, former state sena-  
tor and national figure in the  
field of education, made a belated  
start in opposition to the candidates  
of Frank L. Smith, regular Republi-  
can and George E. Brennan, Demo-  
crat.

His entry was identified by the  
group sponsoring the campaign as an  
aftermath of the recent senatorial in-  
quiry into expenditures of the Illinois  
primaries. An announcement called  
the third candidate "a regular Republi-  
can who would in all probability be  
with the Coolidge administration on  
most issues."

### MINNESOTA PROHIBITION HEAD STAYS IN OFFICE

St. Paul—(AP)—Adjutant General  
W. F. Rhinow will remain as north-  
west district prohibition director for  
at least another year, Governor Chris-  
tenson Tuesday granting him the ad-  
ditional leave of absence at the re-  
quest of the treasury department.

### EXONERATE FONCK IN BLAME OF LATE AIRPLANE TRAGEDY

New York—(AP)—Captain Rene  
Fonck has been exonerated of any  
blame in the crash on his non-stop  
New York-Paris airplane  
when it attempted to take off last  
week, and is now planning another  
trans-Atlantic air enterprise. Igor  
Sikorski, designer and builder of  
the plane, and all other connected  
with the flight, were exonerated  
with Fonck the pilot by a coroner  
who Monday night ended an in-  
quiry into the deaths of Charles  
Clavier, radio operator and Jacob  
Islamoff, mechanic, who were kil-  
led in the crash.

Walter R. Jones, the coroner,  
termed the crash "a most unfor-  
tunate accident in which I find no  
culpability or culpable negligence  
on the part of Captain Fonck or  
any other person connected with  
the venture."

### SMITH, MILLS NOMINATED IN NEW YORK RACE

### Both Parties Favor Referen- dum on Prohibition Question

Syracuse Arena, Syracuse, N. Y.—  
(AP)—Democrats of New York state  
unanimously and for the fifth time  
nominated Alfred E. Smith of New  
York City for governor. The nomi-  
nation was accompanied by a demon-  
stration of tremendous enthusiasm.

New York—(AP)—Ogden L. Mills of  
New York City, was nominated as  
candidate for governor of New York  
state at the Republican state con-  
vention Tuesday.

The last three sessions of congress  
Mr. Mills has represented the Seven-  
teenth New York district in the lower  
house. He is a lawyer, and is 46  
years old. He served overseas with  
the rank of captain until the close of  
the war. He is a graduate of Harvard  
and Harvard Law school. He has vig-  
orously opposed Governor Smith's  
policies through addresses in various  
parts of New York state and commu-  
nications dispatched directly to the  
governor. Seymour Lowman was  
nominated to succeed himself as lieut-  
enant governor.

PARTIES FAVOR REFERENDUM  
Both Republican and Democratic  
parties in New York state approve a  
state referendum on the Volstead act.  
Their chief candidates are openly in  
favor of modification of the act.  
Among the issues so far defined for  
the November election are whether  
President Coolidge is responsible for  
prosperity and whether the adminis-  
tration of Governor Al Smith has been  
extravagant.

Republicans were on record Tuesday  
as favoring not only prohibition en-  
forcement but a referendum on state  
determination of alcoholic content of  
beverages. They adopted their plat-  
form at a convention in Madison  
Square Garden Monday night.

The Democrats, known to favor  
modification of the Volstead act, de-  
ferred adoption of theirs until Tuesday.  
The Democratic convention is  
meeting at Syracuse.

PLATFOM ADOPTED  
The Republican platform was adopt-  
ed without dissent, notwithstanding  
the desire of a minority for a state  
enforcement act. This was taken to  
mean that dry opposition to the nomi-  
nation of Mills will be futile.

The platform charges that Smith's  
administration has been "the most ex-  
travagant and expensive in the his-  
tory of the state" and says that under  
national Republican policies the whole  
country is enjoying greater prosperity  
than ever before.

Franklin D. Roosevelt, keynoter at  
the Democratic convention, said the  
Republicans were trying to win the  
New York election on a falsified Coolidge  
economy record. As to the Vol-  
stead act, he said the Republicans  
had neither the courage to enforce it,  
nor the brains to amend it.

### RICE LAKE WOMAN BADLY BURNED STARTING FIRE

Rice Lake—(AP)—Mrs. MacSchude,  
21, was probably fatally burned late  
Monday when kerosene she was about  
to use ignited. Her clothing was  
burned from her body. Her husband  
came to her aid, rolled her in a rug  
and quickly extinguished the flames.

### ONEIDA MAN INSANE, TWO DOCTORS SAY

Coroner's Jury Finds Dead  
Man Was Murdered by  
His Employer.

Complaint charging Steve Gaunt, 37  
years old, town of Oneida farmer, with  
murder in the first degree was pre-  
pared Tuesday by District Attorney  
John A. Lonsdorf after a coroner's  
jury recommended that Gaunt be held  
for the murder of William School, 57, a  
farm hand who had been working for  
Gaunt, on Sunday.

After deliberations of less than half  
an hour the jury brought in a verdict  
in which it was found that Mr. School  
came to his death at the hands of his  
employer after his skull had been  
crushed in by "some blunt instrument  
or weapon." It is believed that an axe  
was used.

Members of the jury were Charles  
Fosse, George Walsh, Peter Stark, J. J.  
Hauert, C. A. Hipp and Oscar Kunitz.  
Immediately upon being informed of the  
alleged murder Monday morning the  
district attorney ordered an in-  
quiry into the weird death. The jury  
was called at 10 o'clock by Sheriff Pe-  
ter G. Schwartz and a trip made to the  
scene of the alleged atrocity. From  
there the group was taken to an un-  
derlaker's establishment in Little  
Chute to view the body of the slain  
man.

### CALL WITNESSES

At noon the inquest was adjourned  
to 2 o'clock when sessions were re-  
sumed in the circuit court room at the  
courthouse. Witnesses called consisted  
principally of Gaunt's two brothers,  
the sheriff and Deputy Jay Bushey,  
and a neighbor who declared that both  
men were seen alive early Sunday  
morning. The crime is supposed to  
have been committed during the morn-  
ing hours.

The mental condition of the alleged  
murderer is apparently so unsettled  
that it was thought useless to even  
call him at the inquest. Since his in-  
carceration in the county jail Gaunt  
is reported to have said nothing of  
consequence concerning the case.

### THINKS HE IS DIVINE

According to two physicians who  
have interviewed Gaunt, the prisoner  
is insane. He suffers delusions of  
grandeur, a not uncommon form of  
neurosis wherein he imagines himself  
omnipotent. It is reported. One of the  
delusions he is said to have explained  
to physicians is that at the time of the  
slaying he believed himself to be di-  
vine and specially ordained to stamp  
out School's life in the hallucination  
that his victim was the devil in hu-  
man form.

"I had him down—he was the devil  
and I had to stamp him out while I  
could," Gaunt is said to have told phy-  
sicians.

Execution of the murder charge would  
be morning that no very strenuous pro-  
secution was Tuesday  
attempted. In all probability, it was  
reported, a lunacy commission will be  
called in to pass on Gaunt's mental  
condition.

"The man gives every appearance  
of being totally unbalanced mentally  
and testimony of neighbors and wit-  
nesses during the investigation and  
inquiry Monday revealed corroborative  
evidence of this fact," District At-  
torney Lonsdorf declared.

"I have talked to the man twice and  
am thoroughly convinced that he is  
insane."

Asked if in his estimation Gaunt  
could be feigning insanity the district  
attorney said he didn't think so.

"The testimony of two doctors, al-  
though in a way unofficial, bears out  
every assumption that the man is de-  
ficient in mind and actually suffering  
terrible delusions," he said.

"WILL PREFER CHARGE  
However, a first degree murder  
charge will be placed against Gaunt;  
he will be granted preliminary hear-  
ing."

### FORMER STATE SENATOR DIES AT RACINE HOME

Racine—(AP)—Otis W. Johnson, 71,  
former president of the Manufacturers  
National bank, and Fish Bros.  
Wagon Co., Racine, died late Monday.  
Mr. Johnson served one term in the  
Wisconsin state senate many years  
ago.

### WRIT QUASHED BY MICHIGAN UPPER COURT

Green Forces to Be Admitted  
to State Convention, De-  
cision Indicates

### POLICE GUARD AT HALL

Gathering Will Be One of  
Most Turbulent in His-  
tory of Michigan

Lansing, Mich.—(AP)—The injunc-  
tion, issued Monday by Judge Leland  
W. Carr in circuit court, restraining  
the seating at Tuesday Republican  
state convention of any Wayne-co.  
(Detroit) delegation excepting that  
nominated by the faction friendly to  
Governor Greenback was set aside by  
the State Supreme court Tuesday.

Detroit, Mich.—(AP)—The Republi-  
can State convention opened Tuesday  
in seeming accord and harmony,  
apparently having no need of the 300  
policemen and special guards station-  
ed about the meeting place to prevent  
a repetition of rioting which split the  
Wayne-co (Detroit) convention last  
week.

Mayor Fred W. Green of Ionia, Re-  
publican nominee for governor, who  
sat on the platform with his wife  
and daughter, received a roof-raising  
ovation.

Anticipated trouble at the doors  
where policemen stopped all who failed  
to show the much-prized creden-  
tials for admittance did not material-  
ize. During the first hour of the con-  
vention there was no attempt made  
by the faction friendly to Governor  
Alex J. Groesbeck to seek admittance.

Action of the Michigan state su-  
preme court at Lansing, in setting  
aside an injunction which in effect  
directed the convention to seat the  
403 Wayne-co delegates favorable to  
the governor, cleared the air percepti-  
bly.

Control of the convention appeared  
settled on the shoulders of the Green  
faction.

### RUMORS FLYING

There was another rumor flying  
through hotel lobbies Tuesday morn-  
ing that the Groesbeck-Wayne faction  
had been called to meet at the De-  
troit labor temple, planning to march  
in a body to the convention escorted  
by Michigan state police. There were  
no state police in evidence, however,  
allaying somewhat the possibility of  
any dispute in authority between the  
Groesbeck-controlled state officers and  
the Detroit police who nominally at  
least, are under control of Mayor John  
W. Smith, supporter of Col. Fred W.  
Green, opponent of Governor Alex J.  
Groesbeck.

All was in readiness Tuesday for  
what promises to be one of the most  
tumultuous republican state conven-  
tions in the history of Michigan.

The two sets of delegates were named  
at the recent county convention  
which broke up in a riot and both  
are claimed by their leaders to be the  
rightful group.

### ONLY "ROAZ BIFF" LEFT WHEN THIEVES LEAVE

Kenosha—The Sunday chicken and  
duck dinners which lately have added  
greatly to the popularity of a local  
restaurant were not served Sunday,  
for when the proprietor went to the  
kitchen Sunday morning he found it  
bare of 43 pounds of chicken and 23  
pounds of duck that had been pre-  
pared for the roasting pan. But at least  
there was roast beef left on the menu.

### Y. M. C. A. Roundup Starts With Parade and Dinner

"Be careful, John!"  
This warning was heard on College  
avenue many times Monday evening  
when anxious wives congregated  
along the sidewalks to watch their  
"cubboys" husbands dash down the  
street astride "bronchos" in the op-  
ening parade of the Red Triangle  
Ranch roundup which started during  
the evening.

Approximately 100 cubboys took  
part in the parade and 15 of the ranch  
hands tried their luck at sticking on  
horsesback. The parade was headed  
by the 120th Field Artillery band. Two  
motorcycle officers and the police car  
also participated in the procession as  
the cubboys, spurred and chapped and  
wearing tan-gallon hats, aroused the  
people in the neighborhood of the av-  
enue with their "yips" and "whoop-  
ees." Many an anxious wife followed  
the line of march with visions of dire  
disaster to her riding hubby.

The parade was preceded by a ban-

### STATE OFFERS EVIDENCE IN AIMEE TRIAL

Witnesses Identify Evangelist  
as Woman in Cottage  
With Ormiston

Los Angeles, Calif.—(AP)—District  
Attorney Asa Keyes Tuesday expects  
to call more state witnesses to testify  
in municipal court here in his effort  
to identify Aimee Semple McPherson  
as the woman he charges occupied a  
cottage at Carmel-by-the-Sea with  
Kenneth G. Ormiston last summer  
while the Angelus temple evangelist  
was absent from her pastorate.

At the opening of the preliminary  
hearing in Judge Samuel Blake's  
court Monday, Mrs. McPherson and  
her mother, Mrs. Minnie Kennedy,  
waived reading of the complaint,  
charging criminal conspiracy, and  
heard five state witnesses testify they  
were positive the evangelist shared  
the cottage with Ormiston, a former  
radio operator at her church. A sixth  
witness declared the bungalow was  
rented to Ormiston under the name  
of George McIntyre, May 14, four days  
before the pastor disappeared at Ocean  
Park beach.

### WOOD DEALER ON STAND

When court adjourned Ernest Ren-  
cat, Carmel wood dealer was still on  
the stand under cross-examination.  
Other witnesses to be heard are Mr.  
and Mrs. H. C. Ben met, owners of  
Carmel cottage, William Mack land-  
dryman, and Lawrence Lelidg, grocer  
both of Carmel, also are expected to be  
called.

John Considine, Carpenter who is  
said to have witnessed several love-  
making scenes in the backyard of the  
Benedict cottage, is one of the prin-  
cipal state witnesses slated for ap-  
pearance Tuesday.

### DULUTH BANK MANAGER SHOOTS SELF TO DEATH

Duluth, Minn.—(AP)—Sydney A. Har-  
ley, secretary and manager of the  
Duluth Morris Plan bank, shot him-  
self through the head Monday eve-  
ning at his home. The banker is be-  
lieved to have suffered a fit of melan-  
cholia.

Accompanied by a shift boss, an  
official of Oliver Iron Mining Co.,  
owners of the Pabst property, and an  
Associate Press correspondent, Sever-  
in was lowered in the cage to the ac-  
tual place in G shaft where the ac-  
cident occurred where the crew of ex-  
pert hard rock shaft borers work sus-  
pended on chains above a 300 foot rock  
abyss. There for an hour the Morse  
cage was sent the imprisoned miner  
who rescue workers said, had resum-  
ed the tapping heard Monday after-  
noon. Tapping, or what is, believed  
to be tapping, was heard at 1 o'clock  
and again at 4 o'clock Tuesday morn-  
ing. But though all work on the men  
shaft was halted, none of the men  
during the hour the test was made  
could be certain that the sound heard  
in the silence periods was tapping.  
The sound of an iron tool striking  
are making to free themselves, or some  
odd echo in the huge cavern.

The diamond drill, for installation  
of which a raise had to be driven  
parallel to the shaft, 27 feet above  
the second level, is ready to start and  
will get under way in the shift which  
started at 7 o'clock Tuesday morning.  
Four hundred feet that drill must  
travel to reach eighth level and with  
good luck in the earth through which  
it must pass, can make about 100 feet  
every 24 hours. If rock is found, it  
will take longer. The drill hole will  
be a pipe with 24-inch pipe to es-  
tablish communication with the pri-  
soners, and to pass down milk, soup  
and tablet foods. The shaft is 375  
feet below surface and eighth level is  
727 feet below surface. A light has  
been lowered seventy feet farther an-  
last night. Alfred Maki went down  
100 feet farther on a rope, but al-  
though he heard men working, the  
prisoners did not answer his signals.

### SIGNALS SHOW 43 PRISONERS STILL LIVING

Father's Release

### CREWS WORK STEADILY

Diamond Drill Is Sinking Hole  
to Send Liquid Foods  
to Workers

Ironwood, Mich.—(AP)—Unexpected  
speed has made in driving forward  
the raise, or tunnel from F shaft of  
the Aurora mine to intersect the  
eighth level of Pabst mine, which  
contains forty of the forty-three min-  
ers entombed in the mine since Fri-  
day noon. The other three are on  
levels thirteen and eighteen.

Ironwood, Mich.—(AP)—At least 46  
of the 43 men imprisoned in the Pabst  
mine probably are not sitting in dark-  
ness but have an adequate supply of  
kerosene for lights, a check of ma-  
terials showed.

Five gallons of the fuel was low-  
ered to the eighth level where the  
men have been trapped since Friday  
before the cave-in of G shaft  
which blocked the level exit. The oil  
was to be used for kerosene lamps  
operated by the shift and is enough,  
to last for months.

Families of the miners have great  
confidence that they will be rescued  
by, at least one of the four expedi-  
tions seeking their release. Sons of  
Thomas Trewartha, imprisoned shift  
boss who has worked in the mine for  
39 years, typified this when they de-  
clared that they would be patient be-  
cause they knew their father would  
be rescued alive.

### WIFE AGES RAPIDLY

The three sons are here to comfort  
their mother, who, they declared,  
has aged rapidly since Friday when her  
husband left for the mine. Tre-  
wartha's familiarity with the mine  
and his reputation for discipline will  
contribute to aiding the trapped min-  
ers.

The raise that has been doggedly  
dug upward 30 feet to the twenty-  
first level of Pabst mine G shaft, was  
completed Friday. Immediate rescue  
of the 43 men imprisoned on the  
eighth level, however, was not pos-  
sible because the shaft obstruction,  
around which the raise was built, ex-  
tends above the twenty-first level. An  
id raise between the twenty-first and  
twenty-third level being put in shape,  
and already 75 more upward feet have  
been won. With 25 feet to go and  
ladders to erect it is hoped to reach  
the twentieth level in 16 hours.

### ATTEMPT TO SIGNAL

An attempt to signal the prisoners  
by Morse code from the top of the  
shaft was made at 4:30 Tuesday  
morning by Joseph Severin, local  
night operator of the Chicago North-  
western railroad, who released him  
from his station duties for two hours  
on account of the emergency.

Accompanied by a shift boss, an  
official of Oliver Iron Mining Co.,  
owners of the Pabst property, and an  
Associate Press correspondent, Sever-  
in was lowered in the cage to the ac-  
tual place in G shaft where the ac-  
cident occurred where the crew of ex-  
pert hard rock shaft borers work sus-  
pended on chains above a 300 foot rock  
abyss. There for an hour the Morse  
cage was sent the imprisoned miner  
who rescue workers said, had resum-

could be certain that the sound heard  
in the silence periods was tapping.

The diamond drill, for installation  
of which a raise had to be driven  
parallel to the shaft, 27 feet above  
the second level, is ready to start and  
will get under way in the shift which  
started at 7 o'clock Tuesday morning.  
Four hundred feet that drill must  
travel to reach eighth level and with  
good luck in the earth through which  
it must pass, can make about 100 feet  
every 24 hours. If rock is found, it  
will take longer. The drill hole will  
be a pipe with 24-inch pipe to es-  
tablish communication with the pri-  
soners, and to pass down milk, soup  
and tablet foods. The shaft is 375  
feet below surface and eighth level is  
727 feet below surface. A light has  
been lowered seventy feet farther an-  
last night. Alfred Maki went down  
100 feet farther on a rope, but al-  
though he heard men working, the  
prisoners did not answer his signals.

## HUNTERS WARNED TO TAKE CARE OF TRIVIAL HURTS

Lockjaw, Other Ills Result  
from Minor Injuries to  
Sportsmen

With the opening of the hunting season in Wisconsin this week, hunters are warned in a bulletin issued by the Wisconsin State Medical society to beware of so-called "trivial injuries." So many little accidents have caused serious results in the past that the health committee of the State Medical society has issued a special bulletin on "Beware" for hunters.

"As the hunting season approaches, it may be wise to remind hunters that they should beware of other things than the dog," declares the bulletin. "Every season brings us appalling list of casualties and fatalities which can be diminished mainly by following the age old maxim, 'an ounce of prevention is worth a pound of cure.' Prevention of accidents calls for 'beware' as a first commodity. As may be seen from the frequent change of seats in a boat or staff, dragging a gun muzzle foremost over a fence or through the brush or carrying loaded guns in improper positions. 'After accidents have happened, the serious ones will receive prompt attention and need no further mention at this time. It is the slight wounds, so-called trivial injuries that are often neglected, and therefore call for consideration.

### DANGER OF LOCKJAW

"Punctured or penetrating wounds, usually do not cause much immediate pain or inconvenience and are therefore prone to be neglected, but owing to the air-tight wound that results, the germ of lockjaw finds favorable conditions for growth and may not manifest itself until after ten or more days—when treatment is a serious problem and the outlook grave. Prompt, competent attention at the time of the injury will prevent a serious development.

"Lacerated wounds. Scratches from bushes, thorns, trees, wires, notably barb wire fences, leave open surfaces for the absorption of infection with possible resultant blood poisoning. Such abrasions should be cleaned and then protected from contamination by clean dressings.

### SPRAINS SERIOUS

"Sprains of joints are often more serious than they seem to be at first, and such injuries call for X-ray pictures to exclude bone injury and to be followed by rest—by splint or plaster supports—in this way markedly reducing the period of disability. "On other frequent wounds of disposition calls for emphasis, namely, care in the choice of drinking water. When in a strange country it should be remembered that water is not always as innocent as it may seem and if there is any doubt about the nature of the supply, be on the safe side, and drink only boiled water."

### CHIROPODISTS HOLD MEETING IN MILWAUKEE

Milwaukee—(P)—Wisconsin chiropodists will discuss foot ailments at their seventh annual convention here October 2 and 3.

Warren J. Smith, Madison president of the Wisconsin Chiropodist society, will deliver the opening address Sunday morning. Addresses by prominent guests will follow. In the afternoon, there will be a course on X-ray diagnosis by Dr. A. W. Krieger, Milwaukee; demonstrations of adhesive strapping for various orthopedic conditions, by Dr. Chester C. Schneider, Milwaukee, and a paper on vascular diseases of the leg and foot, by Dr. Francis D. Murphy, director of the Milwaukee county hospital. A banquet, dance and entertainment will be given in the evening. After a business meeting, at which officers will be elected, the chiropodists Monday will have a round table discussion of cases met with in every day practice.

### PRINTING COMMITTEE PAYS \$1,500 BILLS

The printing committee of the county board of supervisors met at the office of County Clerk John E. Hantschel on Monday. Bills aggregating approximately \$1,500 were allowed. This represented the only business transacted before the committee was stated. The unusual amount of money touched for was due largely to printing and advertising expenses connected with the recent election, Mr. Hantschel said.

### Commission Meets

A meeting of the county highway commission held at the office of Highway Commissioner A. C. Brunsell on Monday was devoted entirely to routine business, allowing bills and discussing the prospects for staging a 3-day inspection trip of roads during the November sessions of the county board of supervisors.

### Judge Returns Home

Judge Edgar V. Werner has returned to his home at Shawano and will not hold court in Appleton again until July cases of the September calendar are called on Oct. 11, unless some urgent need for his presence arises. It was reported Monday afternoon.

## Hickory Nutting Makes School Thoughts Easier

One of the consolations the month of September brings to the school boy is the fact that he must return to the old tasks of "Reading and Riting and Rithmetick" is hickory nutting. And the consolation to the boy means worry and cares for "his."

Almost any mother can tell you of torn breeches and stockings and waists, of scratches and cuts and bruises, and sometimes poisoning from Ivy, of the complaints of "Willie or Jimmie" that the other gang beat him to the tree and the trouble she has to get the leaves raked and the lawn cut or the wood box filled and other numerous chores accomplished. But then mothers are used to that sort of thing.

Hickory nuts are plentiful throughout the woods and are said to be a bit soft. Soft or hard, the meats are the thinnest, and the school boys are after them. "No Trespassing or Beware the Dog" signs don't mean a thing to the average boy armed with poles, clubs, bare sticks, baskets and what not when he sees a "fresh one" that ain't been touched.

And of course the things that go with "hickory nutting" such as the dirt brown stains and the flirts and cracked finger nails from pulling off the shells, and the rivalry that's all a part of the game, without which there would be no thrill in this ancient and still popular looker, more than pay for the difficulties encountered in getting them.

brought to the attention of the authorities Mr. Leonard said. Descriptions have been broadcast to other states and an arrest is expected at any time, police declare.

An enrollment of 787 students in the college of liberal arts and science at Lawrence, only ten less than the number registered Oct. 1, 1925, was announced Monday by O. A. Mead, registrar. The first semester's work started last Thursday.

In this group there are 118 seniors, 115 juniors, 153 sophomores, 273 freshmen, 51 special students taking work both in the college and the conservatory of music, 11 special students in the college, and 5 post-graduate students.

Forty-one of the number taking both college and conservatory work are freshmen, making a total enrollment of 314 in the class of 1930. The number of boys and girls in the class is evenly divided, the registrar's records showing that there are only eight more girls than men students.

The distribution of enrollment by classes on Oct. 1, 1925, was: Seniors, 114 juniors, 125 sophomores, 210, and freshmen, 345.

### STILL HOPEFUL OF CATCHING ELOPERS

Hope of apprehending a man believed to be eloping with a married woman and her two children for whom police are searching within the state has not been given up. It was reported by District Attorney John A. Lonsdorf on Tuesday.

Several days ago the husband of the woman reported that his wife had taken the children and left Appleton with a former lover. A warrant for the arrest of the quartet was issued but the fleeing party had more than a six hour start when the matter was known to them.

## DOG LEAPS IN FRONT OF GUN AS OWNER SHOTS

Queen is dead and "Juicy" is heart-broken. A. A. (Juicy) Gratzmacker has declared himself in the race for the "hardest lucked duck hunter" in the world. Queen was Juicy's pet water spaniel and "one of the finest duck dogs ever raised." She was the pet of the patrons at the Cozy barber shop.

"Juicy" had spent the morning duck hunting in Wolf river marsh and as he returned to shore decided to take a shot at a mudhen. Just as he raised his gun to shoot, Queen jumped in front of the barrel and received the charge in the back of the head. As she sank to the bottom of the boat "Juicy" took her head in his hands and she rolled her eyes and wagged her tail as she died, as if to say "It's all right, old pal. I know you didn't mean it."

The dog was valued at \$100, although Juicy declares he wouldn't sell her for twice that.

## STATE INSPECTOR AT RURAL HIGH SCHOOLS

County Superintendent A. G. Mead, spent Monday and expected to devote all day Tuesday to a tour of Outagamie rural high schools in company with State Inspector J. A. Giles, Madison, in charge of the high school division of the state department for this section. It was reported Tuesday. The state department sends Mr. Giles on inspection trips several times a year, it was stated.

### Report Stolen Car

Word was received by Appleton police Tuesday morning to watch for a Buick touring car, license B 31, 752, with a California top, reported stolen in Manitowish late Monday night. The car can be identified by the name Joseph Steiner engraved on both front doors, the report said.

## BECHER TOSSES HAT INTO RING. AS INDEPENDENT

Defeated Candidate for Clerk  
of Courts Tries Again in  
November

Carl J. Becher, who lost the nomination for clerk of circuit and municipal court at the Primary, announced Tuesday morning that his bet is in the ring and that he will seek the office at the November elections as an independent candidate against Harry A. Shannon, incumbent. In announcing his second attempt to win the support of the voters Mr. Becher declares that enough discrepancies were shown to have existed in the handling of the primary vote to warrant his feeling that perhaps he would have been justified in asking a recount.

"Rather than do that," Mr. Becher declared, "I swung over to the belief that my running in the Independent field will settle the matter more satisfactorily without involving the expense and work of recounting the thousands of ballots which were handled in determining the nomination for sheriff."

"It is against political precedent to some degree to thus announce a candidacy after defeat at the primaries but defeat this year seems to be such a dubious quantity that I do not hesitate to try a second time to gather sufficient votes to win the office." When Mr. Becher did not petition a recount the nomination was certified by Mr. Shannon with a majority of more than 300 votes.

## PRODUCT PRICES PROHIBIT PAINT PURCHASE PLANS

Any high pressure salesman with an idea that a demand for paint can be created in Outagamie-co. or his brother who might campaign on a slogan of "mend the fences" will find himself decidedly "out of luck" this fall, according to local farmers. Considerable attention has been called to the fact that a large number of barns and other farm buildings are principally decorated with lithographs or painted advertising signs—these it is intimated will remain.

Incidentally, the fall is the time of year most often devoted to fence repairing. Some fences repairs, it was said, undoubtedly will be made but very few rods will be built requiring new materials.

It is not, it was pointed out, that farmers have not absorbed the knowledge that if you save the surface you save all but they declare that prices received for farm products have not been commensurate with costs of improvement programs.

## PAINTER FINDS WINE HAS KICK OF TNT

Fond du Lac—A gallon jug of wine which Harold Haushalter, Campbellsport, found in a stove, proved exceedingly "potent." For Haushalter is nursing cuts which required 10 stitches. He is also badly burned. The jug exploded.

The injured man whitewashed the interior of a residence in Campbellsport Saturday. To expedite the drying, he built a fire in the stove. A short time later he noticed a strange odor and opening the oven door, found the jug of wine within. As he took the container out of the oven it exploded with the result mentioned. The blast shook the house and attracted neighbors, who took the injured man to the doctor.

## THE TITTEMORE CANDIDACY

J. N. Tittlemore, of Omro, has announced his candidacy as an independent Republican for United States senator in the November election. Thus far it is the only independent candidacy against Blaine, and it is to be hoped there will be no other. There has been talk that Judge Rosa of the State Tax commission would enter the race. Undoubtedly he would make a formidable candidate in opposition to Blaine, but the candidacies of both Rosa and Tittlemore would be unfortunate as well as hopeless. It is the anti-Blaine sentiment that must elect an independent if one is to be elected, therefore the opposition should be concentrated on a single candidate.

Mr. Lenroot will not consider an independent candidacy, and with him out Mr. Tittlemore fills the bill probably as well as any person in the state who could be expected to get votes. Mr. Tittlemore for many years was associated with the Progressive party as such, but Blaineism and other instants led him to identify himself with the Conservative Progressives. He was the nominee for the Republican state convention for lieutenant-governor in the recent primary, and showed surprising strength, receiving a total of 106,807 votes, or over 65,000 more than were cast for Perry for governor, and some 40,000 more than his nearest fellow candidate on the same ticket. In the election of 1918, Mr. Tittlemore was a candidate for governor in the triangular contest with Governor Philipp and Roy Wilcox, and polled 50,000 votes, carrying seventeen counties and running second in sixteen. This record shows that he has real political strength.

Mr. Tittlemore is a farmer and for years has been identified with farm movements. He is an intelligent student of farm problems and his first concern if he were senator would be to conserve the interests of agriculture and do all that he could in behalf of the farmer. It is said that his campaign slogan will be "Pay off the farm mortgage." He was for three years president of the Equity Society, which at one time had a membership of 50,000 in Wisconsin. In 1920 he was honored by President Wilson with appointment as delegate to the National Industrial conference held in Washington.

Mr. Tittlemore is a forceful speaker and a vigorous campaigner. As a strong champion of the farmer, he ought to poll a large rural vote throughout Wisconsin. Undoubtedly from an economic standpoint, the betterment of the farmer is of more immediate need than that of any other class. Labor has made greater advancement in recent years than has agriculture. However, Mr. Tittlemore's appointment to and work at the Industrial conference shows that he is highly regarded in dealing with such problems, and we may be sure that his sympathies are with the workingman.

With Mr. Lenroot, the best and most influential friend the farmers of Wisconsin and the Northwest have had at Washington for many a year, out of the senate, and the one effective contact with the administration lost, there is no question but what a man like Tittlemore could do more for agriculture than could possibly be expected of Blaine, who is merely a near-lawyer and politician.

We do not know a better way for the farmer to have effective representation at Washington than to send a capable farmer to the senate. It would seem that when the opportunity is afforded to do this, agriculture would unite in its support of a candidate like Mr. Tittlemore. It certainly will do this unless it is more obsessed with politics than it is with own good. So far as business and the manufacturer are concerned, we think they would get a square deal from Mr. Tittlemore.

On the whole, Mr. Tittlemore's candidacy for the senate is an important political development. It has large potentialities. It is not impossible he can be elected, provided the farmers see their true interest lies in supporting his candidacy, and provided further that those opposed to Blaineism will also rally to his active assistance.

## AUGUST COMMERCE

The foreign trade of the United States for the month of August as indicated in the department of commerce report, was decidedly encouraging. It shows that we exported goods valued at \$386,000,000 and imported goods valued at \$336,000,000, "leaving a so-called favorable" net balance of \$50,000, which is the most substantial balance attained in any single month during the current year.

This increase in the August export balance is attributed to three main sources—cotton, wheat and coal. More cotton, \$5,000,000 more, was shipped abroad last month than a year ago while there has been an expansion of 8,000,000 bushels in our export grain sales. Shipments of coal to English markets have been on a substantial scale since the full effect of the coal strike there began to be felt, and this has been a third substantial factor in the heavier export total.

The report is encouraging as it indicates that we are expanding our foreign business. One must admit that the report is disappointing in one respect, however, and that is in the fact that it does not show any substantial increase in manufactured articles, but only in raw materials. Does this mean that the American manufacturer is careless of the future of foreign markets? We trust not, for now is the time for American manufactured goods to be profitably introduced throughout the world, not two years from now when some of our erstwhile allies and now commercial rivals recover from the effects of the war's aftermath and start on real production.

For some mysterious reason, American manufacturers have never been able to see the full possibilities of foreign markets for their goods, and this attitude has been reflected in the half-hearted manner in which these markets have been attacked. Foreign markets comprise rich fields for the American manufacturer of vision who is willing to invest some time and money in their development.

## THIS IS THE NEWS

What's the news of the day? Two New York girls, both 12 years old, swam 17 miles. A woman was killed in Philadelphia when a fire engine skidded and crashed into a window. Dawes has gone fishing again. An expedition, returned from Africa, brings a new kind of ant-eater. Mascagni, Italian composer, has cancelled his visit to the United States. The rail strike in Colombia has ended.

What's the news? We find hundreds of such articles. They are common. They come into our homes daily. Among them, recently, are brief announcements of hog calling contests in Nebraska, Texas, and many other states.

While having no bearing upon the trend of important current events, these hog-calling contests are intriguing. They fire our imagination. We picture a man out in the open yelling to his heart's content. We would like to do the same. That's why we are interested.

We wouldn't care to end a strike in Colombia; find a new ant eater in Africa; be killed by a fire truck in Philly, or swim 17 miles in New York. But we would like to get out and call hogs, or something. We would enjoy relieving some of this pent up emotion which civilization suppresses.

So, that's the news of the day. There are men out in the open calling hogs. We are interested because we would like to be there.

There are several American girls abroad who haven't tried to swim the channel. Perhaps because they can't swim.

Perhaps a man's wife is his better half because she always says "Better not do this. Better not do that."

Civilization advances. Now and then someone finds a less painless method of killing murderers.

While the dog is called man's best friend, and fur-coat bearing animal is favored by women.

Chicago is planning a three-level street. Perhaps the two upper levels will be for the crooks.

## COLLOIDAL LEAD TREATMENT OF CANCER

Fifteen years ago Wassermann and Kersner found that the salts of tellurium and selenium would destroy cancer cells when injected into the cancer, but when doses sufficient to do this were injected into the blood stream the effect was likely to prove lethal to the host. The idea of these and many other scientific investigators was to find a remedy which would destroy cancer cells when administered through the blood stream, yet not attack the normal cells of the body.

Colloidal copper, colloidal silver, colloidal gold, colloidal selenium, colloidal sulphur, and various combinations of these, have been tested by research workers, both on animals and on human beings, and these observations and experiments have warranted at least the hope that some remedy might be found which, when injected into the blood stream, would attack or destroy or even impair the vitality of cancer cells without seriously injuring the normal body cells.

In 1920 W. Blair Bell of Liverpool began treatment of human cancer by injections of colloidal lead into the veins. The colloidal form of lead was selected because various lead compounds had been found to be poisonous to the host.

Out of 227 patients with otherwise hopelessly advanced cancer, that is, cancer advanced beyond the hope of any relief by the one remedy we have today, surgery, this treatment with colloidal lead has cured 50 patients who have lived from one to five years with complete arrest of cancer.

Speaking of this extraordinary record, Dr. Francis C. Wood, director of the institute of cancer research, says: "For the first time a substance has been found that will arrest the growth of carcinoma for a period of from one to five years, and in this patients both inoperable and beyond the power of irradiation to effect a cure."

Bell himself says much remains to be done in order to diminish the danger of the method. Blair devised a highly dangerous procedure, for it is necessary to approach a vein close to the host, and this calls for the highest skill and judgment as well as special clinical experience on the part of the physician.

In animals the injection of the colloidal lead preparation causes intense congestion of the cancer for 24 hours, with subsequent capillary thrombosis, necrosis, and shrinkage. In human beings a great deal of pain occurs in the first 24 hours after injection, then the patient becomes more comfortable. Doses are given about once a week for three months. However, Bell feels from his own experience that "the time is not yet ripe for the general employment of lead." Scientific students of cancer everywhere are working on this line now, and there is some ground for hope that a weapon may be found which will be of some use against this most baffling of modern plagues. That Bell has no illusions about the colloidal lead treatment being a specific "cancer cure" is evident in his practice of operating on all operable cases, as he believes that offers the best chance, reserving the colloidal lead treatment for carcinoma or sarcoma cases which are beyond hope of surgery.

## QUESTIONS AND ANSWERS

## During the Cold

With the first touch of autumn cold my misery begins and it sticks with me all winter. Whenever I go out of doors walking, skating or anywhere my nose turns red, which you can scarcely deny is due to the cold. I wouldn't mind so much, but everybody pokes fun at me and all the joy is taken out of life. (R. H. H.)

Answer.—No, it can scarcely be the cold. Lots of girls go out in the cold dressed about as you dress, and never turn a hair or blush anywhere. On the other hand, lots of others dress very warmly in indoor where it is nice and warm, yet sport a bright blooming cherry complexion. More reasonable to assume your body is not often enough exposed to cold air or cold water, or is too much protected by unnecessary artificial warmth. No local remedy will do much good, unless you can wear a little electric warmer under your nose. Regular morning cold baths, shower, dash, plunge, or air bath in the winter, will help to improve the vasomotor control. You must carefully eschew codding. Practice to keep comfortable without artificial aids, but do not attempt to "harden" your skin. For red nose with oily or shiny or pimply tendency, send a stamped envelope with your address.

## THE AVERAGE MAN

Here is a toast to the average man, Patiently doing the best that he can; Working away For his average pay. And knowing he's classed as an average man.

Faithful and cheerful and brotherly, Making no boast of his honesty; Doing the right As given the light, With never a taint of the Pharisee.

Helping a neighbor in need of his aid, Marching light-heartedly, firm, unflinching, Taking the pain, The pleasure and the gain, The pleasure and sorrow, as part of the trade.

Bearing the musket when need does arise, Following duty, expecting no prize; Bearing the brunt; Upright and looking all men in the eyes.

Claiming no rights save as one of the clan, Fighting the fights that his leaders began, Plugging along With the rest of the throng— A pretty good scout is the average man.

Two gentlemen stopped on the street to talk. One was wearing a large diamond pin.

"Isaac," said the other, "dot is a fine diamond, you got. Vore you got it?"

"Vell," said Isaac, "my brother he died and left \$450 for a stone. Dis is de stone."

## Play Section of Club Opens Its Campaign

The recreation department membership campaign of the Appleton Womens club was opened Monday evening with a supper and meeting of representatives from the various industries of Appleton. Each girl will be responsible for soliciting memberships from other women and girls who are employed with her and will also do free lance work in securing members. A prize was offered to the girl who secured the largest number of new members for the department.

News Bulletins of the Appleton Womens club were distributed to the girls. These told of the activities of the club open this winter and gave a tentative schedule for the year for athletics, dramatics, dancing and social clubs.

The Y. M. C. A. swimming pool, bowling alleys and pool tables will be used by the club this year on Wednesday. The club bowling leagues will play at the Arcade alleys this year, but it is possible that another small league could be formed on roll on Wednesday at the Y. M. C. A., provided that enough women registered. Miss Sylvia Roubush, who is in charge of the club bowling, announced. If no interest is shown by the women either for forming another league or for playing in organized groups, the alleys will be used for practice by the members of the major leagues of the club.

The bulletin also told of the dramatic work of the club workshop last year and discussed the plans for a Little Theatre and more elaborate and extensive play work this year. Gymnasium work is given under the direction of Miss Agnes Vanneman, physical director, at the Appleton high school gymnasium. Both basketball and physical education classes will be started, it was said.

## Greek Clubs Sign Up 64 Frosh Girls

Sixty-four Lawrence college girls accepted invitations to join sororities after the concentrated formal rushing lasting from Monday afternoon, Sept. 20 to Friday night, according to an announcement made by Miss Twila Lytton, dean of women, who was faculty advisor of rushing this year. Pledging services were held by each group immediately after the announcement. Twenty girls said that they were undecided about which group to join. This was said to be an unusually large number not to decide at the end of the rushing period.

Formal bidding of girls who were undecided in their choice cannot be made until Wednesday afternoon. Miss Winifred West, president of Panhellenic council said. However, the true which has extended over the weekend will be broken and sororities may rush girls until Wednesday. During the period of true no upper-classmen were allowed to talk to freshman girls, thus allowing them time to think about the groups and decide which they would like to join.

Girls who accepted invitations are: Phi Mu, Leora Calkins of Shawano, Dorothy Goetsch, of Wauwatosa, Eleanor Meating of Escanaba, Helen Elizabeth Mason of Appleton, Miel, Elson of Marinette, Jane Norris of Manitowish, Herbert Wagner of Fond du Lac, Ernestine Winkelmiller of Two Rivers, Marjorie Eberlein of Shawano, Zeta Alpha, Florence Gulliver, Miriam Lewis of Appleton, Evelyn Seybold of Forest Junction, Elma Sharpe, Delta Gamma, Edythe Gosling of Waupaca, Florence Hanson of Green Bay, Arlene Kempton of Duluth, Mary Kreiss of Appleton, Ida Belle La Budde of Duluth, Judith Morrow of Elgin, Ill., Margaret Parsons of Chicago, Betty Post of Appleton, Ida Turner of Duluth, Mary Lou Wrascoe of Marinette, Florence Hayes of Green Bay.

STRONG PROGRAM  
PREPARED FOR  
CLUB'S SEASONNoted Speakers Engaged  
by Kaukauna Womans  
Club

Kaukauna — The Kaukauna Women's club has made plans to hold eight social meetings during the coming year. A literary program has been planned for each of these meetings, with members of the club taking part in the program.

The first meeting is to be a 1 o'clock luncheon at the home of the club president, Mrs. H. S. Coe. Social meetings of the organization will be held at the homes of members while other meetings will be held in the club rooms in the Kaukauna library building. The art committee will have Mrs. Conant of Green Bay give her illustrated talk, "The Pencil in Art," at the October meeting in the club rooms in the library. Talent from Lawrence Conservatory of Music has been secured by the music committee for the November meeting. The health committee is fortunate in being able to place on a single program the names of Miss Cornelia Van Koooy of the N. A. T. A. and Miss Anna McCarthy, field worker in the state department of health. The date of their appearance will be announced later.

Miss Mable Burke, director of home economics at the Appleton Vocational school will appear on the club's home economics program. Her theme will be, "The Home." Another interesting program has been planned by the civic committee and all numbers on the program will pertain to "The Old Northwest," beginning with primitive Wisconsin and then following in order with "The Jesuits," "The Fur Trade," "Western Forts" and finally, "Early Chicago."

A conservation program has been planned for the March meeting and a five reel film on the state parks, beauty spots in the state, state fish hatcheries and etc. has been secured from the state conservation department for this meeting.

Mayor W. C. Sullivan is scheduled to speak at one of the spring meetings.

The biggest event in the club's plans for the coming year will be the district meeting to be held in Kaukauna in May.

SMITH EASES UP  
ON HIS GRIDDERS

Starts Tuesday to Prepare for Saturday's Battle With Shawano

Kaukauna—Coach William Smith let his high school gridders off with an easy practice Monday night but starting Tuesday night the squad will be worked at top speed to prepare for the game with Shawano here Saturday. Although the gridders are scheduled to play the Appleton Saturday Smith is taking no chances in having his men over confident for the game. He also has several rough spots in the squad to iron out before Saturday's game.

With the Oshkosh game safely tucked away one of the three football games on the high school football schedule is the game with the Green Bay and Appleton games remain to really bother the Orange and Black squad. Prospects for another good season are bright. All of the men were out Monday night and not any of them had received any serious bruises from the Oshkosh game.

BASKETBALL PRACTICE  
WILL START EARLY

Kaukauna—Although football is first getting a fair start plans already are being made for the basketball season. The Twenty-five club, one of Kaukauna's amateur basketball organizations, has held several meetings to prepare for the coming season. The club plans to start practice in the Normal school gym within a week or two. The Twenty-fives have always turned out a good amateur team and have won most of their games. The present roster of players consist of William Winge, Sylvester Dix, Gordon Welch, Harold Frank, Milton Engerson, Fay Posson, Armand Licht and Abe Golding.

BANKERS DEFEAT  
HOMANS AS BALL  
SERIES RESUMES

Moneyman Score Twelve  
Runs to Cop Game from  
Truckers

Kaukauna—After a lay-off of two weeks, the "little world" of two teams here Monday evening between the Homans soft ball team, winners of the first and second half of the city soft ball league schedule. The Bankers played Homans their first meeting of the series by trouncing the Transferers 12 to 8. It was a good game and the ultimate result was very much in doubt until the very end of the game. Homans led off by scoring three runs in the second half of the first inning after holding the Bankers scoreless in the first half. The Bankers were unable to score in their half of the second while one "Truck" came home. Neither team scored or even made so much as a hit in the third. In the beginning of the fourth it became apparent that the Bankers had not given up hope nor had entirely lost their batting eyes for they started to wake up and run around the paths more than had been their custom in other games. They brought two runs in and didn't let the Homans have a thing in their half. Two more Money Men came across home plate in the fifth inning to make the count four all. They again surprised the Transfer men by not giving them a thing in their half. Big things happened in the sixth and four Banker runners scored while Homans retaliated by getting three but they lost the lead to the Bankers.

Having once got started it was hard for the Bankers to quit and they counted four more markers in the final inning. Homans tried desperately to rally in the last half of the seventh but the first two men up were easy outs. Peters, the third man up, walked. Ernest hit, scoring Peters, and J. Phillips clouted out a two bagger to put two men on the sacks, but Ruggles was out at first, ending an exciting game.

Both teams held a conference after the game and decided to play the next game on Wednesday.

The lineup:

Homans: Peters, Brenzel, Phillips, Ruggles, C. Phillips, Romnick, Hamer, Towsey, Garvey, and Nichols.

Bankers: Lazon, Wahlers, Brenzel, F. Olm, H. Olm, Hansen, Spindler, Mulholland, Johnson and Brouche.

Series standings:

W. T. L. Pet. Bankers 1 1 1 .667

Homans 2 1 2 .333

ONLY FOUR G. A. R. MEMBERS SURVIVE

Death of Andrew Kern Depletes G. A. R. Ranks in Electric City

Kaukauna—With the death of Andrew A. Kern only four G. A. R. members remain in the city. Mr. Kern died at 4:15 Sunday morning after a short illness. He is survived by his widow, one son Frank, and two grandchildren. Murel Kern of Kaukauna and Mrs. Edward Selthamer of Menasha.

Mr. Kern was one of the oldest business men on the south side. He organized the Kaukauna Stone Quarries company in 1881 and with J. Timm, later, he started the Kaukauna Laundry with which he was connected at the time of his death. Mr. Kern was active politically. He had been a trustee of the village of Ledyard and he served as an alderman for the Third ward after the organization of the municipal government in the city of Kaukauna in 1885. Several times he was elected as supervisor from the Third ward.

Mr. Kern was born in the Mohawk valley, New York, 55 years ago. He worked on a farm until the outbreak of the Civil war. He enlisted at the age of 17 and served under General Steele in the Red River campaign. He was Company G of the Ninth Wisconsin Volunteer Infantry. He saw three years of active service. He was a member of the G. A. R., the Odd Fellows and the A. O. U. W.

KAUKAUNA KEGLERS OPEN  
INTER-CITY PIN SEASON

Kaukauna—The Kaukauna Alleys bowling squad meets an aggregation from Wrightstown at the Hilgenberg bowling alleys Wednesday evening in the first inter-city match of the season. The lineup for the Kaukauna team has not been announced but some of the best keglers in town will be on the squad, according to P. Hilgenberg, captain of the team. The Fox River Valley Bowling league schedule will be opened here Friday night with the Electric City team bowling the Kaukauna Alleys. There is a great deal of rivalry between these two Kaukauna teams.

Enchantingly light, ENZO JELL as a dessert tempts the most indifferent appetites.

CHURCH PICNIC  
WELL ATTENDED

Incllement Weather Fails to  
Keep Down Attendance at  
Church Affair

New London—About 350 people attended the picnic at the church grounds of Emmanuel Lutheran church. These annual picnics have come to mean much in entertainment and in aiding materially in defraying expenses of the church school. The day was windy and cold and not the best for picnic plans, yet with a few changes the program for the day went over nicely and an attractive addition was made to the school fund.

The high school band of the New London public schools furnished music throughout the afternoon while an attractive program of music and recitations was presented by teachers of the school, Miss Hessler, Miss Arndt and Mr. Schield. The grammar school, under direction of the latter, exemplified an Eastern band drill, an up side down drill and a wind mill drill. The children were entertained with various games and contests.

Little Chute  
Lady Now Well

Tells Remarkable Story of Relief  
brought by New Remedy Drecto.  
Says She's Like Another woman.

"For the first time in eight years I am enjoying good health and I give all the credit to this Drecto that is being introduced by the Drecto man at Schlitz Bros. Drug Store," says Mrs. Nick Helf of Little Chute, a suburb of Appleton, wife of the well-known water tender at the Little Chute Paper Mills.

"My whole system was completely rundown when I started on Drecto. My stomach filled with gas and acids almost as soon as I started to eat and I was bloated up and belching all the time. I had gnawing pains in my abdomen, was subject to cramps and shooting pains around my heart and could hardly breathe at times. I was in such pain I hated to eat because of the suffering I knew I would go thru afterward. I slept poorly, always felt tired and weak, my times couldn't even do the lightest work around the house."

"Besides suffering with my stomach I was also troubled with dizzy spells, weak kidneys, rheumatism and headaches and was so nervous I couldn't bear to have my grandchildren play around the house."

"But since taking Drecto I am a new woman. I feel ten years younger and all my suffering has ended. My stomach is now in excellent condition, my bowels are regular, the headaches, dizzy spells, rheumatism and nervousness have all been relieved and I eat, sleep and feel like a young girl again."

The good old fashioned roots, herbs, barks and leaves like our forefathers brewed their teas from and passed for the stomach, liver, bowels and blood. Drecto is made from twelve herbal plants and its action is prompt and pleasant for man, woman or child.

Mr. W. V. Martin the well-known Expert from the Drecto Laboratories now at Schlitz Bros. Downtown Drug Store, is telling scores of people every day how to take Drecto for best results. Go to see him. adv

Varicose Veins Reduced Or Money  
Back, Says Voigt's Drug Store

This Simple Home Treatment  
Giving Amazing Results.

The world progresses. Today ailments that took weeks to cure can now be ended in a few days. If you have varicose veins or bunions you can start today to bring them back to normal size, and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at any dispensing pharmacist and apply it night and morning as directed to the enlarged veins. It is very powerful and penetrating, and only a little is required.

After a few days' treatment the veins will begin to grow smaller and by regular use will soon reduce to normal.

Moone's Emerald Oil, besides being one of the most powerful antiseptics, capable of destroying the most pernicious germs and the poisons caused by them, is also a marvelous healing agent.

People who want to reduce varicose veins, or get rid of eczema, ulcers, or piles in a few days should not hesitate to get a bottle at once. It is so powerful that a small bottle lasts a long time. Any pharmacy can supply you. Voigt's Drug Store sells lots of it. adv

They're certainly  
stepping out!

WHY, they even have a Heatrola now! And that's a true sign of prosperity and progress! For Heatrola is so smart-looking—no comparison between it and old stoves. And no comparison, either, in heating efficiency. Besides, people know that Heatrola is the original warm-air heating plant for small homes—its name stands for class in heating equipment. ## WAUPACA PICKLE FACTORY CLOSES

Spot Rot, Developing in September, Is Only Mar to Successful Season

Special to Post-Crescent  
**Waupaca**—The Squire Dingle Pickle Co. of Chicago, now operating 72 pickle stations throughout the middle west, closed its four Waupaca-co. stations at Waupaca, Weyauwega, Readfield and Sheridan, Monday, Sept. 20, with the most successful season of this territory. The run was somewhat shortened, however due to spot rot which developed during September.  
 S. F. Taylor of Waupaca general manager of the Waupaca-co. stations, and W. C. Horton, buyer of the Waupaca station, state that 21,900 bushels of pickles were purchased at the four stations this season as follows: Waupaca, 7,500 bushels, of which 3,200 bushels were for dills and the remainder for salted pickles; Weyauwega station purchased 5,500 bushels, of which 2,250 bushels were for dills; Readfield purchased 5,800 bushels of which 1,500 were dills; and Sheridan station purchased 3,000, of which 750 bushels were for dills. Thirty-three carloads of pickles averaging 900 bushels per car have been shipped from the four Waupaca-co. stations since last year, and there are still 12 car loads of old pickles to be shipped. These pickles are shipped in barrels to the Squire Dingle Co. headquarters in Chicago and are all ready for table use.

## 2 CARS DAMAGED IN COLLISION AT MEDINA

Special to Post-Crescent  
**Medina**—An automobile sedan, owned and driven by Floyd Clemens of this place, and a touring car owned by Oscar Roessler of Fremont were badly damaged late Saturday afternoon. The accident occurred when Roessler attempted to pass the sedan as Clemens was turning into the driveway at his mother's home at the west end of the village, it is reported. Both cars were coming from the east, and Clemens had to cross the road to turn into the driveway, which was on the left side of the road. Roessler did not notice that the Clemens car was about to turn, and could not stop in time to avoid the collision. The sedan lost two fenders and a door was badly damaged. The windshield was shattered and the hood to the engine was badly dented. Mr. Roessler's car lost a wheel. None of the occupants of either car was injured.

A surprise party was given for Nila Tanke at the Arthur Tanke home Saturday evening, by a number of friends. Miss Tanke has accepted a position at the county asylum and starts work Monday. Carols and cards were played and a lunch served. Those present were Mrs. Ardie Van Alstine, Mrs. M. Lesleyong, Mrs. John Bottensek, Mrs. Theodore Loose, Mrs. Arthur Krock, Mrs. Edw. ## WEYAUWEGA HOME IS PLACARDED

Wife of High School Principal Is Taken Ill With Diphtheria

Special to Post-Crescent

**Weyauwega**—The home of Mr. and Mrs. George E. VanHeuklom, principal of the high school, was placarded for diphtheria on Friday.

Mrs. VanHeuklom is ill with the disease.

Mrs. VanHeuklom is staying at the Harold Clark home and a nurse from Clintonville is caring for his wife.

The Junior class of the high school held a class meeting Friday afternoon after school and the following class officers elected: President, Alvin Richter; vice president, Gladys Shreve; secretary, Violet Larkee; treasurer, Frieda Chick; class advisor, Fred Sontag, assistant principal.

The class play was discussed and it was decided to have it late in October.

The upper classmen are busy planning the freshmen initiation party, which will be held in the gymnasium of the school on Oct. 1.

Arterial stop signs have been placed on each intersection of side streets and roads with 18. The work was done by county highway men.

The Junior Campfire girls and their leader, Mrs. Harold Clark, hiked to the Hayward cottage at White Lake Saturday morning where they made a campfire and prepared their dinner, returning early in the afternoon.

## NEED WARM WEATHER AT ONCE TO SAVE CORN

Unless warm weather sets in immediately Outagamie-co. corn is virtually a loss as far as silage is concerned, it was reported Monday.

The freeze Saturday night added the final touch to late potatoes also, it was stated. Potatoes generally are rotting in the ground but the total amount of damage can not be accurately estimated.

A shortage in the corn crop will bring about a shortage of feed during the winter months but this will be balanced to some extent by higher prices for cattle, experts assert.

# U. S. ANALYSES DECLINE IN PRICES FOR CATTLE

## BETTER GRADES SHOW GREATEST LOSS TO FARMS

Marked Increase Noted in Supplies. While Consumptive Demand Is Not as Great

Relatively low prices of the better grades of fed cattle this summer have been due largely to a marked increase in supplies without a corresponding increase in consumptive demand for such cattle, says the United States Department of Agriculture in an analysis of the situation.

The decline in slaughter cattle prices in recent months has been extremely discouraging to feeders, the department points out, and although the market appears to be somewhat underling strength in early fall is met by an increase in market receipts.

Average prices of good and choice grade slaughter steers at Chicago during July and the first three weeks of August ranged from \$3 to \$4.75, lower per 100 pounds than a year ago. The decline on steers weighing over 1,100 pounds ranged from \$3.50 to \$4.75, whereas steers weighing under 1,100 pounds, sold from \$3 to \$4.75, lower than during the corresponding period in 1925.

**GRADES DECLINE SMALL**

Common grade steers weighing over 1,100 pounds declined only 15 to 20 cents during the same period, and common grade steers under 1,100 pounds advanced from 20 to 30 cents per 100 pounds over prices prevailing last year.

Average wholesale prices of choice grade western dressed steers, beef on the New York market during the same period declined from \$4 to \$4.75 per 100 pounds as compared with 1925, whereas common grade beef on the same market and at the same time ranged from 11 lower to a few cents higher per 100 pounds than a year ago.

The extreme decline prices of the higher grades and heavier weights as compared with the declines on the lower grade and lighter weight cattle are rather striking, says the department, and suggest that the cause for the present unsatisfactory situation is that more cattle have been highly finished on the abundance of relatively cheap corn than could be moved into consumption channels except at price concessions.

**INSPECTED CATTLE KILLED**

The number of cattle slaughtered under federal inspection from March to July, inclusive this year, was 6.4 per cent greater than the number slaughtered in the corresponding period of 1925. Because of better dressing yields and slightly heavier weights the increase in the total production of beef amounted to 8.1 per cent.

Carcass weights in July averaged 29 pounds or 4 per cent heavier than in July 1925. This increase applied to the July slaughter, was equivalent to 34,500 cattle of the average weight slaughtered a year ago.

The slaughter figures are of particular significance, the department says, when consideration is given the character of the cattle slaughtered. Because of the tuberculosis eradication campaign in some of the large dairy districts there was a heavy movement of reactor cows to market, particularly from March to June this year, and the total number of cows and heifers slaughtered during those four months was 160,000 head or 12.6 per cent more than in the corresponding period of 1925. While steer slaughter was larger each month since January than in the corresponding months of 1925, the largest increases were in June and July and totaled 70,000 head or almost 9 per cent.

**EXPECTED HIGH PRICES**

With an abundance of relatively cheap corn and with fewer hogs to feed there seems to be a rather general disposition on the part of feeders during the fall and winter of 1925 to anticipate, for the summer of 1926, another highly remunerative market for heavy finished cattle.

This seems to be borne out, says the department, by a study of the character of the beef steers sold out of first hands for slaughter at Chicago from June 1 to Aug. 21 this year and last, which shows that the number of choice and prime steers increased 53.3 per cent, good steers 23 per cent, and medium steers 27 1/2 per cent, whereas common grade steers decreased 27.5 per cent as compared with movements during the same period.

Consideration of these supply figures in connection with changes already noted in prices of the various grades of steers and beef beef, the analysis concludes, leads to the opinion that the relatively low prices of better grades of fed cattle this summer were largely due to a marked increase in supplies without a corresponding increase in consumptive demand for such cattle.

## WOMEN ATHLETES SELECT OFFICERS

Miss M. Helen Fritze was elected president of the Women's Athletic board of Lawrence college at a meeting last week. Other officers chosen were: vice president Miss Louis Blum, secretary Miss Norma Kitch, treasurer, Miss Mary Morton.

Enough hockey clubs and pools to equip a team will be purchased and arrangements will be made to secure Whiting field for practice. It was decided.

Appointments of directors of the three major sports for girls also were made. They are tennis, Louis Manchester, track, Mary Morton, basketball, Norma Kitch.

## MADE PRIZE STOCK FARM OF STUBBLE LAND

Sylvania, Pa. — The herdsman of Edgewood farm, near here, is a woman—Mrs. George H. Monroe.

She's part owner, with her husband, of course. But it is due to her care and patience that the stubby land on which this couple first settled 15 years ago has turned out to be as profitable as any city industry.

More than this, honors and awards have come to the Monroes for the high type of Guernseys they have been developing on their farm.

It was a little over a year ago that they decided to test their pure bred Guernseys. Now two of their cows head the list in Class AAA.

Midgetta 107891 is the new world's champion for this class, with a 10 month's record of 12,552 pounds of milk containing 557.1 pounds of butterfat. Her stablemate, Bessie 94809 has made 12,600 pounds of milk and 561.4 pounds of butterfat, thus taking second place.

These are the prices of the fifty-odd animals on the farm. Yet the land itself has brought such returns as to bring in to the Monroe family a wealth estimated at some \$40,000 in the 15 years they were on it.

And 15 years ago they had bought their 440 acres as virgin timberland at \$15 an acre.

Mrs. Monroe has a pillow of the blue ribbon she won at local county fairs in New York and Pennsylvania. At one fair in Elmira, N. Y., last year, her animals won 12 first prizes out of 13 entries, an unusual record.

The entire farm is a model of modern agricultural science. Milking machines, well kept stables and sanitary improvements of all kinds make the place attractive and efficient. The place is considered among the finest in the state.

Besides the Guernseys, the Monroes have other blooded stock, including pure-bred sheep and high-grade chickens. The entire stock is valued in excess of \$20,000.

Yet, valued stock and farm and all that they have, these get second place to the two children in the Monroe family.

Hannah, 11, is entering high school this fall, while Archie, at 9, is close on her heels.

"We take more pride in our children than in our stock," says Mrs. Monroe.

## BUTTER MARKET IMPROVES OVER PREVIOUS WEEK

Cheese Receipts Fall Behind Last Year; Eggs Are Comparatively Light

Madison, (U.P.)—Confidence in the butter market improved last week, despite generally unsatisfactory trading, the state department of markets reports.

Trading was rather slow and supplies were not burdensome but were ample to meet the demand. Fractional declines in price took place on higher grades. Car market trading was only fair. Prices are about 2 cents lower than a year ago.

It is reported that cheese receipts at Wisconsin points continued to fall behind last year and the decrease is noticeable despite satisfactory trading in most sections. The cold storage report of holdings for the entire country estimates holdings of American cheese on Sept. 1 at 80,845,000 pounds as compared with 75,512,000 pounds on the same date last year. The net input for August was 7,164,000 pounds, a falling off from the net input of 8,575,000 pounds for August 1925. As a result, the lighter net input during August, the surplus over last year was reduced to 4,332,000 pounds. Cheese prices are about three fourths of a cent lower than last year at this time.

**EGG RECEIPTS LIGHT**

Egg receipts were comparatively light. There has been good trading on shorted and storage eggs. Storage withdrawals continue to run heavy.

Heavy butchers and packing shows increased 15 to 25 cents in price over the previous week. On the other hand, values of light lights and pigs suffered a drastic cut. It is reported that hog supplies generally showed considerable contraction. Prices are about 80 cents below those of last year at this time.

The cattle market showed considerable unevenness. Yearlings closed 25 cents higher than the previous week, while the choice heaves closed 50 cents lower. Prices are about 10 lower than a year ago.

Receipts on sheep markets were considerably smaller than during the previous week, but they were heavier than during the corresponding week last year. Prices are 25 to 50 cents lower than the previous week and about 75 cents lower than last year at this time.

## FRENCH ACTRESS WON'T BE LIONIZED BY ENGLISH

London, (U.P.)—London wanted to lionize Yvonne Printemps, the attractive wife of Sacha Guitry, while she was appearing here in "Mozart."

But the little French woman would not accept any social engagements. "One cannot be an artist and worldly at the same time," Miss Printemps declared. "Duse once told me, years ago, that one cannot be 'mondaine' and also be an artist. I have found out that she was right. I am an artist, and I should be too tired for any art if I tried to do anything else."

MRS. MONROE AND MIDGETTA ARE SHOWN AT TOP, WITH BESSIE BELOW. BOTH ARE PRIZE GUERNEYS, AFTER A YEAR'S TEST.

## Sanitary Quarters For Hogs Increase Income

Although the industry is not carried to the point of employing white uniform attendants to study solicitously the psychological and physiological reactions of maternally inclined swine to varied conditions it nevertheless has been conclusively proved in Outagamie-co. that sanitary quarters, cleanly surroundings, and the use of plenty of lye solutions in cleaning houses and pens has appreciably increased the income from hogs, it was reported recently.

Viewed more extensively as an adjunct to farming rather than a specialty in this county hog raising up until recent years was approached on a lax basis but the present trend is toward better stock and better conditions for that stock, a survey indicates.

The Poland China and Duroc lead in popularity but just plain "pig" is well represented in the herds on farms where dairying or diversified farming form the background income, it was stated.

Proper care of the animals, considerable attention to breeding and feeding, and careful supervision against disease will pay large dividends to the farmer, experts claim.

Any given herd given proper attention compared to a herd of like size and breeding handled in a slipshod manner will show an average of from 25 to 100 per cent more profit to the farmer, it is declared.

Assessors' figures for the various townships of the county indicate that while hog raising is not a premier industry here it is still one of considerable magnitude.

## WOLF FARM TO RAISE NEW TYPE OF CANINE

"Raising a type of police dog from a cross breeding of collies, shepherds and wolves is the experiment" being tried at the Fox River Wolf farm, Kaukauna. The first breed from this experiment is expected next January and dog owners throughout the Fox River valley are interestedly awaiting the result.

The company purchased two male shepherd dogs from an Illinois kennel, two male collie dogs from another Illinois kennel and five female Colorado timber wolves. The dogs were bred to produce one of the finest types of police dogs. This experiment has been tried in Nebraska with great success, it was indicated by owners of the farm.

Otto G. Hass of Kaukauna and Donald Smith of Wrightstown are owners of the kennels.

L. A. Brusewitz Is Erecting Large Modern Barn, Silo and Milk House

BY W. F. WINSEY

Black Creek—L. A. Brusewitz, route 3, will soon complete the building of a modern barn, a milk house and a silo. The barn is a hip roof structure, frame, on a concrete foundation that furnishes, stabling, 36 feet by 80 feet. In the basement are 18 steel stanchions, 3 cow pens, calf pen, a bull pen and four stalls for horses, all on concrete floors. The milk house is 14 by 18 feet and the silo 12 by 42 feet with a hip roof. The timber is 14 by 18 feet and the silo 12 by 42 feet with a hip roof. The timber for the frame work of the barn was saved on the farm last winter.

## WHAT'S FORD UP TO? IS COMPETITORS' QUESTION

Detroit—The great question in auto circles here and in the rest of the country is, what's Ford up to now? For the rumor still persists that he's coming out with a new model this autumn, one that will put to rout all of his competitors. Perhaps it's a six-cylinder model, or one with a gear shift transmission.

The rumor is based on all sorts of signs about the Ford factory at Dearborn, about Ford branches throughout the country and on Ford orders with other firms.

At Dearborn a new type of small car is seen at times running along the road, in and out of the factory. Perhaps that's the car. But there's not a word to be had from anyone in the least interested. Ford himself continues to deny everything, if he can be gotten to say anything at all. Recently a large steel firm got an

order from the Ford plant for heavier and larger steel sheet stock. Which encourages the report that Ford's up to something new.

Since he has denied he is planning a new Ford, the latest rumor has it that his surprise will be a Junior Lincoln in the \$1,000 class.

Ford, it is said, is forced by necessity to spring something new on the public and his competitors because of the deep gash they have cut in his field.

While all other important cars rose in production this last half year, Ford was the only one that dropped. And in one case a competitor has actually exceeded Ford production, high as that still is.

Price cuts apparently haven't helped, auto men argue. Therefore, a radical change in Fords is expected.

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

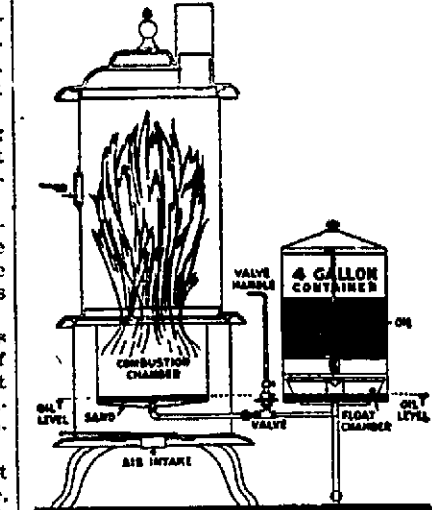

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

Following are removals from the city, together with their new addresses:

Mrs. J. B. Laughlin, Charleston, W. Va.; Ralph W. Kamps, Marion, Wis.; Walter Masso, Green Bay; C. Bach.

## SCHOOLS CLOSE TO WAIT UNTIL ROADS DRY UP

Several rural schools were forced to close from one to three days last week on account of heavy roads making it virtually impossible for teachers to reach the buildings. It was reported Saturday. One teacher tried the trip with ordinary shoes one day, purchased rubber boots the second and on the third gave up the attempt to conduct classes, it was stated.

# EXPECT 1,000 AT VALLEY SAFETY CONFERENCE

## STREETS WILL BE DRESSED UP FOR OCCASION

Senator Ferris of Michigan Will Deliver Talk at Forum Meeting

Appleton will be host to approximately 1,000 persons Wednesday at the second annual Fox River Valley Safety conference.

Reservations for more than 500 had been received at the chamber of commerce office early Tuesday morning, and it was expected that this number would be increased by several hundred before Wednesday morning.

At least 400 reservations are expected to be made for the opening chamber of commerce forum meeting to be held in conjunction with the conference at the First Methodist church in the evening at which Senator Woodbridge N. Ferris of Michigan will be the principal speaker. Teachers from all cities in the valley, members of the chamber of commerce, and a large representation of the general public will attend this gathering.

Final plans relative to the conference were prepared Monday noon at a meeting of the executive committee at the Conway hotel.

The city's main thoroughfares will be bedecked in holiday attire, merchants having been instructed to decorate the fronts of their business establishments.

A proclamation urging street decoration was issued Tuesday by Mayor Albert C. Rule. It reads:

"On Wednesday, Sept. 29, the Fox River Valley Safety conference will hold its second annual conference in our city. That proper respect and honor may be shown them I ask that all business places display the flag and make any other decorations suitable for this occasion."

**WILL PROVIDE BOOTHS**  
Two registration and information booths will be put into service for the visitors. One will be located at the Conway hotel, where the registration and information booth will be established at the hotel, conference headquarters, while sessions will be held during the day.

Luncheon for three groups have been scheduled at noon. Paper, pulp and metal men will lunch at Conway hotel, the public service group will meet at Hotel Northern, and the wood-working group at Hotel Appleton. Singing and other entertainment features will be provided at each luncheon.

Ample parking space will be at the disposal of delegates. Police Chief George T. Prim promised the executive committee. The area at the southwest corner of the intersection of N. Oneida and Washington-sts will be reserved for safety men, as will space near the Langstadt-Meyer Co. building on E. Washington-st.

Of the 400 persons expected to attend the forum meeting at the First Methodist church, starting 5:45, at least 250 will be teachers. It is expected by sponsoring the "Motor to Appleton," the executive committee. Merchants week also will attend this meeting to report on the progress of their plans. They will occupy a separate dining room until the time for Senator Ferris' address.

That Senator Ferris is a popular man is indicated by the fact that, although he is a Democrat in a normally Republican state, he has served as governor as well as senator of Michigan, according to the committee in charge. He is said to be a speaker of unusual force. His theme will have to do with the teaching of safety in schools.

**FOUNDED INSTITUTE**  
Senator Ferris, founder of Ferris Institute, was born Jan. 6, 1853, on a farm near Spencer, Tioga-co, N. Y. At the age of 14 he entered the Spencer Union academy, and in the following spring he enrolled in the Union Academy. That fall he taught school, and the next spring he entered the Oswego Academy, passing the state examination for Regents certificate during the year, admitting the holder to Cornell University without examination.

Followed several more years of teaching and study at the Oswego Normal school, after which he entered the University of Michigan. He left within the first year, however, to resume teaching, which occupation he followed for many years.

The people of Michigan have twice made him their governor, and he has received the degree of Master of Pedagogy from the Michigan State Normal college and that of Doctor of Laws from Olivet college and the University of Michigan. He was elected United States senator following his second term as governor.

The morning session of the safety conference will open at 9:30 at Lawrence Memorial chapel with R. G. Knutsen, commissioner, Industry Commission of Wisconsin, acting as chairman. Mayor Albert C. Rule will deliver the address of welcome.

The first speaker will be August Kaems, safety engineer, Simmons Company, Kenosha, and his subject will be How I Would Seek Safety in a Manufacturing Plant. My Way will be the theme of S. H. Strymaker, safety engineer, Fairbanks Morse Co., Beloit, who will follow Mr. Kaems on the program.

**STUDY EYE ACCIDENTS**  
The next subject to be studied will be Eye Accidents and Their Prevention, led by Dr. Sidney Walker of Chicago.

The Foreman's Responsibility for Safety also will be discussed in the morning. Frank R. Kreutzer, of the Paline Lumber Co., Oshkosh, will present a treatise on The Foreman and Near Accidents, and James Pickens, Mani-

towoc Ship Building Corporation, Manitowoc, will talk on the Foreman's Personal Example.

The departmental luncheons at noon will be served at the three hotels heretofore mentioned.

J. Leslie Sensenbrenner, chairman of the industrial committee, Appleton Chamber of Commerce, will preside at the afternoon session starting at 2 o'clock at the chapel. Subjects to be treated at this time and the speakers follow:

Guards: Their Efficiency and Their Limitations, Fred M. Wilcox, chairman, Industrial Commission of Wisconsin; Safety on Public Highways, Col. Henry C. Baker, Chief of Police, Racine; Teaching Safety in Public Schools, Isabelle Stevenson, executive secretary, Education Division, National Safety Council; A general round table will conclude the session.

Following the forum meeting at the church, the concluding session of the conference will open at 7:30 at the chapel with E. H. Jennings, president Appleton Chamber of Commerce, presiding. Vaudeville and community singing will be presented first, after which George Elmer, International Harvester Co., Chicago, Ill., will discuss Thinking in Terms of Safety.

He will be followed by Judge Alva R. Corlette, Cleveland, O., whose subject will be Securing Traffic Safety.

**IS SECOND CONFERENCE**  
The first safety conference of this organization was held at Green Bay last year. Those sponsoring the gathering are American Pulp and Paper Union Superintendents' association; Engineering Section, National Safety Council; Paper and Pulp section, National Safety Council; Public Utilities section, National Safety Council; Wood-working section, National Safety Council; "On Wisconsin" association, National Safety Council; Wisconsin Chiefs of Police association; Industrial Commission of Wisconsin; compensation insurance companies of Wisconsin; Appleton Chamber of Commerce; employers of Appleton, Neenah, Menasha, Oshkosh, Fond du Lac; Green Bay, Kaukauna, Marinette, Manitowoc Two Rivers, Sheboygan and other cities.

**BEGIN HEALTH TESTS IN RURAL SCHOOLS**

In tensive examinations for tonsil and teeth defects in rural schools will be started next week, it was announced Tuesday by County Nurse Marie Klein. The opening of the school year has been devoted largely to a general health survey and to giving health talks in the schools, Miss Klein said.

## COMMITTEES PUT IN CHARGE OF YEAR'S PROGRAM

Roosevelt Parent-Teachers Association Discusses Season's Work

Committees of the Roosevelt Parent-Teachers association will have charge of the programs of meetings this year, it was decided at an informal discussion by chairman of the various committees with the officers and A. G. Oosterhous, principal of the school, Monday evening in the school library room. Mr. Oosterhous will have charge of the next meeting on Oct. 11, when he will explain the work he has done with a guidance plan for the school.

A patriotic program will be arranged for the February meeting when the citizenship committee under the leadership of J. L. Jones will plan the details of the numbers. This was considered the most suitable month for such a program because of the patriotic spirit usually prevalent in the schools at the time of Lincoln's and Washington's birthdays.

Other meetings for which tentative arrangements were made were the recreation and health departments. John Lappen and Mrs. E. W. Cooney will have charge of these respective programs. Other chairmen of committees present were: Mrs. Max Elias, program; Mrs. R. G. Meyer, publicity; George Wettengel, membership; Mrs. Peter Trans, social; Mike Steinhauer, accident prevention; William Block, finances; Dr. Earl L. Baker, music. Officers of the association present were: John Goodrich, president; Louis Marshall, first vice president; Frank Young, second vice president; Miss Verna Taylor, secretary; William Block, treasurer, and Mrs. Lucy Horton, member-at-large.

The duties of the various committees in the work of the association and by what means the association could best serve the interests of the children and their parents were discussed informally.

## NO PERMITS FOR HOMES WERE ISSUED LAST WEEK

Not a single permit authorizing construction of a residence was issued by Walter Zschaechner, building inspector, last week, his records show. Permits for seven garages and four miscellaneous projects estimated to cost \$2,950 were granted, however. The largest cost of any single undertaking was \$900 for a garage.

## DRIVER MISSES HIS COURT APPOINTMENT

Joseph Spletter, 1626 E. John-st., charged by police with driving an automobile without proper transfer of license and with neither front nor rear license plates failed to appear Tuesday morning in municipal court at the hour set for hearing.

One count, that of improper record of transfer, will probably be nolle, it was stated.

However, it was reported, Mr. Spletter will have to answer to a charge of driving without a license. The defendant explained to police that when he purchased the machine the former owner declared he would attend to details so that no trouble would be encountered in operating the machine.

## WRISTON BUSY WITH SPEECHES

Lawrence College President Schedules Large Number of Addresses

Several speeches on international problems as well as those pertaining to the college will be given by Dr. Henry M. Wriston, president of Lawrence college, in cities near Appleton during the next month.

Dr. Wriston will talk to the Parent-Teachers association of Kaukauna on Thursday night. The subject of this address has not been announced. America and Arbitration will be the subject of a talk before the Sheboygan Women's club on Oct. 5.

In the superintendents and principals section of the meeting of the Northeastern Teachers' association in Oshkosh on Oct. 8, Dr. Wriston will discuss What the College Expects of the High School. The president has been scheduled for two addresses to be given in the morning and afternoon at the Central Wisconsin Teachers' association convention in Wausau on Oct. 15, and efforts have been made to secure him for a third talk in the evening.

The subject of a talk to be given before the League of Women Voters at Neenah has not been decided. Dr. Wriston said. He will talk on the International Problem at a meeting of the American Association of University Women in Madison on Oct. 23.

Mr. and Mrs. Clarence Kempfert have returned to their home at Elroy after a week's visit with the former's mother, Mrs. A. Kempfert, N. Appleton-st.

Nearly 300 Reservations for Knights of Columbus Anniversary Program

Nearly 300 reservations have been made for the banquet and program with which nights of Columbus will celebrate their twenty-fifth anniversary in Armory G on Wednesday night. It is expected that more reservations will be received during the day.

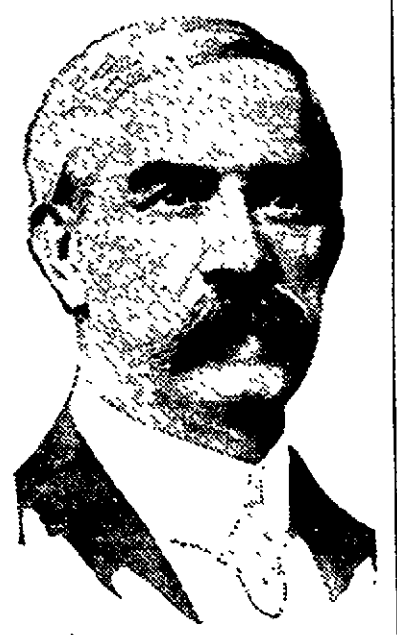

A group of local Knights of Columbus will meet James A. Flaherty, Philadelphia, supreme knight of the order, when he arrives here early Wednesday evening. He is scheduled to arrive about 6 o'clock. Mr. Flaherty is one of the principal speakers on the anniversary program.

Music during the evening will be provided by the Fullwider quartet. Vocal soloists will be Marion Hutchinson, McCredy of Appleton, soprano, and Alfred Hiles Bergen of Milwaukee, baritone.

Special honors will be paid to charter members of the Appleton council at the dinner.

Other talks during the evening will be given by Bishop Paul P. Rhode of Green Bay, and Quinn O'Brien of Chicago.

## CHICAGO GETS TOO RITZY FOR APPLETON'S EDNA

Chicago—The most compellingly interesting city in the world is becoming "a little spoiled and a trifle elegant" and consequently is losing its chief charm—a rugged naturalness. Thus speaks Edna Ferber, the Wisconsin novelist, of Chicago.

Here to plot out a new novel featuring the stockyards, the steel mills and other Chicago industries, Miss Ferber became a bit plucked at her reception.

"At the steel mills," Miss Ferber related, "they told me I couldn't come in because I was a writer." At the stockyards she said she learned that the litterati are declassé.

She evidenced keen disappointment over her discovery that Chicago is becoming self-conscious.

## 2 INDEPENDENTS PASS PETITIONS AROUND COUNTY

Schwartz and Miller Will Seek Election on Independent Ticket

Petitions for placing the name of Earl G. Schwartz as a candidate for sheriff on the independent ticket, and of Andrew Miller as candidate for the assembly from the second district on the same ticket, are being circulated. It was reported Monday.

Agitation for a full Independent list at the coming general election seems to be spiced by the fact that no further applications for petitions have been received by County Clerk John E. Hantschel.

Carl J. Becker, who sought nomination for the office of clerk of circuit and municipal courts against Harry A. Shannon, has not yet declared his definite intentions. Friends of Mr. Becker's have urged him to enter the race as an Independent but on Monday he said he had not decided the matter.

Prospective nominees have five days in which to file their petitions, it was brought out.

## ORDERS HEARING SCOUT LEADERS ON CONFIRMATION ATTEND MEETING OF SALE OF MILL

Island Paper Company Creditors Told to Appear in Court

Menasha—Fred Beglinger, circuit judge of Winnebago county, has ordered creditors of Island Paper company and all other persons interested in the sale of the Island Paper company plant in Menasha to appear before him in the courthouse at Oshkosh at 10 o'clock Saturday morning, Oct. 2, to present their reasons why the sale of the property to Norman E. Brokaw of Neenah should not be confirmed, and why the receiver, Hugh Stranek, of Menasha, should not be authorized to convey the property to Mr. Brokaw under receipts from him of the balance of the purchase price, \$50,000. Twenty-five thousand dollars of the purchase price has already been paid to the receiver and the balance is to be paid within 30 days from Sept. 11. The sale will include the mill and paper mills, tools, machinery, office equipment and supplies, water power rights and leases connected with said paper and sulphite mills, and all real estate on which the mills are located.

## ORDER ASSESSOR TO REDUCE VALUATION

Menasha—Among the judgments granted Saturday by Judge F. Beglinger in circuit court at Oshkosh was one ordering the board of review of the city of Menasha to reduce the assessed valuation for the 1926 real estate tax on the Gilbert Paper company plant from \$268,800 to \$234,400. The judgment states that a stipulation providing for a reduction of \$34,400 in assessed valuation on the paper company's property had been agreed upon between the company and the city of Menasha.

## FEB. 17 IS DATE FOR CHURCH DEDICATION

Menasha—The new Congregational church will be dedicated on Feb. 15, 1927. This date has been selected for the reason it is the seventy-sixth anniversary of the old church. Because of this event the ceremony is to be made quite elaborate.

The unfavorable weather of the last two weeks has delayed the workmen to such an extent there is very little probability of having the ground floor ready for use by Oct. 15, the time agreed upon in the contract.

Every effort is now being put forth to get the walls completed and the building inclosed before cold weather. One of the contracts not yet awarded is that of interior decoration. The committee in charge still has the matter under consideration.

## CLINTONVILLE NEXT FOE OF GRID TEAM

Menasha—Menasha high school football team plays the first game of its schedule with Clintonville at 2 o'clock Saturday afternoon at Recreation park. The two teams are old rivals and a good game is assured. The home players will appear in their new uniforms. Daily practice is being held this week in anticipation of a hard battle.

## STATE HEALTH EXPERT DEMONSTRATES WORK

# U. OF W. PROF TO LECTURE ON BOOKS OF BIBLE

Invite Public to First of Series of Talks on Biblical Literature

Dr. John Walker Powell, professor of literature at the University of Wisconsin, will begin a series of 12 lectures on Fundamental English Literature Thursday evening at the vocational school auditorium, according to word received Tuesday by local representatives of the university extension division. The series of lectures of Dr. Powell probably will be given each Thursday evening.

Dr. Powell's lecture will be on the literary aspects of the Bible. Because of the keen interest in the subject at this time, the first lecture will be open to the public and an invitation is issued to all who are interested. Dr. Powell is a nationally-known lecturer and authority.

The first lecture will be especially interesting as it lays the foundation for a lecture extension plan which is entirely new and has never been used anywhere, according to Dr. Powell. It combines a popular lecture course and a university credit feature. Any person listening to the lecture can receive university credit for it from the University of Wisconsin should he desire. No report on it or taking of notes are required, the mere listening to the talk giving the hearer the important details.

The feature of the lectures, which makes them particularly valuable as well as interesting is the vivid, dramatic presentation of the leading characters of the Scriptures, making them human and understandable rather than shadowy, impossible personages of tradition.

The feature of the evening was the sermon of the Rev. R. M. Senneberger, Ralph Longworth and members of troops 7 and 14.

# Oneida Man Held On Murder Charge

ing as is usual and it will rest with the court as to whether a sanity commission will be called—as undoubtedly it will be.

Gaunt is not shamming, he is not the type of man who at his best would have the type of intelligence necessary to hoodwink justice," Mr. Lonsdorf declared.

The punishment, if Gaunt is found guilty of murder or adjudged insane, amounts to the same in essence. In the latter event were he to at any time in life regain command of his faculties he would still be under indictment and subject to prosecution on the homicide charge, it was pointed out.

Coroner Herbert E. Elsworth presided at the inquest.

Preliminary examination will be held before Judge Theodore Berg in municipal court.

A still, 80 gallons of moonshine and a quantity of alleged wine found on Gaunt's premises were destroyed by Sheriff Schwartz. No suspicion had been directed against the place as a manufactory of alcoholic beverage and it was only through the murder, that the double purpose of the farm home was brought to light.

Monday it was thought that a quarrel over disposition of the profits of the still or perhaps a drunken orgy had led up to fight in which one of the participants lost his life but this theory was abandoned by the authorities after the investigation.

That Gaunt was losing his mind became known Saturday when two brothers from Green Bay visited him and later told the authorities here of their suspicion that their brother is mentally unbalanced. They, however, had no idea that his madness had reached the point where he might be a menace to human life.

Relatives claimed the body of Mr. School. It was released to them by the coroner after the inquest.

# TAKE INSURANCE WHILE YOUNG, M'GOWAN SAYS

Life insurance was the subject of a talk by W. Frank McGowan at a meeting of part-time and half-time students of the Appleton-vocational school Monday afternoon at the school. He discussed the uses and conveniences of life insurance of different types.

Life insurance is a commodity the same as other material things, the speaker said, and it is an investment of a high order. One of the best methods of saving money is through insurance, he said. The benefits derived from each dollar of insurance were explained as well as the advantages of taking out policies when one is young as the premiums are lower.

Plans also were made to conduct a teachers' training class.

New teachers will be appointed and new officers will be elected at a special meeting to be held soon. A men's Bible class probably will be organized at that time.

# WISCONSIN DEATHS

MRS. HARRIET WOODARD  
Wausau—Funeral services for Mrs. Harriet Woodard, who died at the home of her son, Clark, in the town of Royalton Thursday evening, were held from Clark Woodard home at 2 o'clock Sunday afternoon. Burial was in Oakwood cemetery. Rev. E. G. Sanderson of the local Methodist church was in charge of the services.

Harriet Colborn was born in Vinland, Winnebago county, May 1, 1853. On May 16, 1872, she was united in marriage to John Woodard, and since that time they have lived in Wausau almost continuously. Mr. Woodard died several years ago.

She is survived by two sons, Clark of Royalton and Eugene of Everett, Wash., and one brother, W. O. Colborn of Girard, Kansas.

Those who attended the funeral from out of town were: Mr. and Mrs. Claire Woodard of Appleton, Mr. and Mrs. Charles Vesak of Shawano, and Miss Katherine Thompson of Menasha.

Maple Creek—The funeral of John Flanagan Sr. was held at 10 o'clock Saturday morning from the Catholic parish hall at New London. The Rev. O. Kolbe conducted the services. Mr. Flanagan is survived by his widow, six sons, two daughters: Thomas Flanagan of Appleton, Dr. Garrell Flanagan of Kaukauna; James of Sugar Bush, Lawrence, John and Ed of Maple Creek. Mrs. Mary McLaughlin of Clintonville and Miss Alice Flanagan of Illinois. The six sons acted as pallbearers. Fifteen grandchildren also survive.

# VANITY CASE

by Carolyn Wells

CHAPTER XLVIII

"Of course, that's how it came about. I found I was making oodles of money in my financial deals. So that gave Sam Anderson a good reason to do what he chose over on the side of the bridge. While, over in the artist settlement, the decent prices I got for my pictures and the fact that Myra had money, kept things going in the bungalow."

"And then?" Truitt's voice was accusing now.

"And then," Heath looked about him, "and then—why, then that snake-in-the-grass Larry Inman, came into my home and broke it up."

"Don't blame him. You had ceased to love your wife before he came."

"A lot you know about it. Whippersnapper that you are! He came between us, my wife turned her affections to him, and I thought I'd just drop out and let them have each other. And then—and then, he killed her."

"No, that won't do, Heath," Truitt put in. "We've not your written confession. You killed your wife. Why did you do it?"

"Because she would have that awful bunch of old glass about. I couldn't stand for it, and so—"

"Try again, Heath," Truitt said. "Why did you kill her?"

"Because she knew my secret," he blurted out. "Because just as I planned to disappear and make it seem like a suicide, leaving her all her money, she told me she knew all about my Sam Anderson role. Just as I had everything finished that had taken years to accomplish, all ready for flight and a calm, happy life of my own here, just then she up and tells me she knows it all. I was beside myself with rage and disappointment. I saw red, I suppose, and that confounded bottle stood there, and half-demented I took it up and let fly at her. I didn't mean to kill her. I didn't mean anything—just hit her in despair."

"And then you used the make-up on her."

"Yes, I did. As I say, I wasn't quite myself. I was a little confused, and somehow it seemed to me she wasn't really dead—couldn't be really dead."

"And Bunny's vanity case was right there, and I was fairly obsessed to see how she'd look with a little color in her cheeks. It improved her so. I went on, fascinated with the results. I worked like an artist, as if I were doing a lovely picture—I felt like that. Then, as a final touch I draped the scarf and added the red buds, and she was a picture. Oh, Myra! If you had looked like that in life I should have adored you."

"Have you no shame? No regret? No penitence?"

Heath looked scornfully at Truitt, who had spoken out of the fullness of his heart.

"You are not my Father Confessor. You have tracked me down, but I can't not confessing to you. I planned it so wonderfully. Over here, I have discreet servants, trained to the point of perfection. I could come and go as I chose, even changing my facial effects en route, if I pleased. And now—"

"Then it was you whom the servant saw leaving the Heath house that night?"

"Yes, of course. I came straight over here, let myself in, and went to bed, and got up in the morning as Anderson. My servants here are never surprised at my unexpected appearance."

"And that night, on your porch," Cunningham mused, "you came to see me as Heath, and later turned up as Anderson."

"Certainly. Don't bore me with reminiscent details. I tell you the whole game was easy, until," he laughed, "until they wanted to put us both up for candidates for the election. I could manage lots of it,

he'd very likely come over himself and take it away. And, as the man said, also which he done."

"Then he put that awful card up and lighted the candles and everything," said Bunny, musingly. "Oh, how could I ever think I cared for him?"

"He was not quite himself, I think," said Truitt, charitably. "When he set up the card and all that. And as for your momentary infatuation, my dear, if I were you, I'd forget it, and transfer my affections to a certain youth I vot of. Now you are off with the old love, can't you be on with the new?"

"I can try," said Bunny, smiling, and Tod whispered, "Come along out on the porch, by ourselves, and I'll give you a few lessons."

THE END

tion of the University of Wisconsin, with improved equipment and programs, the university has announced. A faculty committee appointed by President Glenn Frank is assisting in developing programs that include a wider range of subjects than formerly. Music and addresses on agriculture and a few other subjects have formed most of the programs of the past.

The station equipment is being completely rebuilt. Professor E. F. Terry, of the physics department said. Four new amplifiers, and a crystal control frequency stabilizer are included in the new equipment. The amplifiers, one on power one on intermediate power, one for the studio, and one for out-of-studio broadcasting, will be put into use when the station reopens Oct. 15. Output will be increased from 625 to 750 watts.

The new crystal control frequency stabilizer is being built in the physics laboratories of the university. It is designed to reduce wave length variations, and thus to minimize fading in reception. The rebuilt WHA will operate on a wave length of 535.4 meters, as did the old station.

B. F. Miller, chief operator, George Curran, and Russell Licht, assistants, are in charge of the rebuilding work. Members of the program committee are President Frank, W. H. Lighty, E. M. Terry, J. T. Wood, P. B. Morrison, J. F. Evans, J. H. Mathews, R. W. Weil, C. H. Fish, C. F. Gillen, E. W. Gordon, G. M. Hyde, George Little, F. Louise Nardin, M. E. Diemer, J. D. Phillips.

### JOINT RESOLUTION No. 16, 1925

To create section 12 of article XIII of the constitution, relating to the recall of elective public officers.

WHEREAS, At the biennial session of the legislature for the year 1923, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:

"Resolved by the Senate, the Assembly concurring, That a new section be added to article XIII of the constitution to read: (Article XIII Sec. 12. The qualified electors of the state or of any county or of any congressional, judicial or legislative district may petition for the recall of any elective officer after the first year of the term for which he was elected, by filing a petition with the officer with whom the petition for nomination to such office in the primary election is filed, demanding the recall of such officer. Such petition shall be signed by electors equal in number to at least twenty-five per cent of the vote cast for the office of governor at the last preceding election, in the state, county or district from which such officer is to be recalled. The officer with whom such petition is filed shall call a special election to be held not less than forty nor more than forty-five days from filing of such petition. The officer against whom such petition has been filed shall continue to perform the duties of his office until the result of such special election shall have been officially declared. Other candidates for such office may be nominated in the manner as is provided by law in primary elections. The candidate who shall receive the highest number of votes shall be deemed elected for the remainder of the term. The name of the candidate against whom the recall petition is filed shall go on the ticket unless he resigns within ten days after the filing of the petition. After one such petition and special election, no further recall petition shall be filed against the same officer during the term for which he was elected. This article shall be self-executing and all of its provisions shall be treated as

mandatory. Laws may be enacted to facilitate its operation, but no law shall be enacted to hamper, restrict or impair the right of recall."

Resolved by the Senate, the Assembly concurring, That the foregoing amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTE—This amendment, if approved, will add to the constitution a self-executing provision for the recall of elective public officers by the direct vote of the people of the state or of any county or of any congressional, judicial or legislative district, under the conditions and in the manner therein set forth. It will apply to officers elected by the people of the following classes only: state officers, county officers, congressional officers, judicial officers, and legislative officers, and will enable the people to recall any officer in the classes named, at any time after he has served one year of the term for which he was elected, and to elect another person in his place for the remainder of such term.

### JOINT RESOLUTION No. 52, 1925

To amend section 5 of article V of the constitution, relating to the compensation of the governor.

WHEREAS, At the biennial session of the legislature for the year 1923, an amendment to the constitution was proposed and agreed to by a majority of the members elected to each of the two houses, which proposed amendment is as follows:

"Resolved by the Assembly, the Senate concurring, That section 5 of article V of the constitution be amended to read: (Article V) Section 5. The governor shall receive during his continuance in office, an annual compensation of not less than five thousand dollars, to be fixed by law, which shall be in full for all traveling expenses incident to his duties. The compensation prescribed for governor immediately prior to the adoption of this amendment shall continue in force until changed by the legislature in a manner consistent with the other provisions of this constitution."

Resolved by the assembly, the senate concurring. That the foregoing amendment to the constitution of the state of Wisconsin be and the same is hereby agreed to by this legislature.

NOTE—Under this amendment, if approved, instead of the governor's salary being fixed by the constitution, the legislature will have power by law to fix it at not less than five thousand dollars, which shall be in full for all traveling and other expenses incident to his duties.

### REFERENDUM

NOTICE IS HEREBY FURTHER GIVEN that at said general election there will be submitted to the voters a question relative to amending the Volstead Act as set forth in the Joint Resolution following:

(Jt. Res. 42, S.)

### JOINT RESOLUTION No. 47, 1925

Providing for referendum relative to memorializing congress to amend the National Prohibition Act.

WHEREAS, The eighteenth amendment to the constitution was ratified by the legislature of the state of Wisconsin without submission to a vote of the people; and

WHEREAS under the "concurrent" clause of said amendment the legislature of the state of Wisconsin provided for the manufacture and sale of non-intoxicating beer by Chapter 536, Laws of 1919; and

WHEREAS subsequent thereto the congress of the United States passed the National Prohibition Act commonly known as the "Volstead Act" limiting the alcoholic percentage of beverages to one-half of one per cent by volume, and

WHEREAS subsequent thereto the supreme court of the United States ruled that the congressional enactment superseded the state enactment, and

WHEREAS a large portion of the citizens of this state are desirous that said National Prohibition Law be amended so as to permit the lawful manufacture and sale within this state of palatable beer of an alcoholic percentage not in conflict with the provisions of the eighteenth amendment; therefore, be it

Resolved by the Senate, the Assembly concurring, that there be submitted to the voters of the state of Wisconsin at the general elections to be held in this state in November, 1926, the following question, so as to determine if a majority of the people of the state of Wisconsin desire the Volstead Act amended:—

Shall the congress of the United States amend the "Volstead Act" so as to authorize the manufacture and sale of beer, for beverage purposes, of an alcoholic percentage of 2.75% by weight, under government supervision but with the provision that no beverage so purchased shall be drunk on the premises where obtained?

NOTE—This resolution simply provides for the submission to the voters at the coming general election of a question framed to ascertain the opinion of the electors of Wisconsin as to whether the Volstead Act should be amended in the particulars stated in the question. No change will be effected in the constitution or the state laws by the vote upon the question submitted.

## Her Own Way.

A STORY OF A GIRL OF TODAY

Joan Meredith stopped abruptly and looked me in the face.

"Where are we going to get fifty thousand dollars?" she asked, as though I who had not had more than two hundred and fifty dollars at one time in my life could go out and pick it up from the sidewalk in front of the door.

"But, Joan, you wouldn't give that ground fifty thousand dollars even if you knew where you could get it, would you?" I asked.

"If he doesn't get it it will run me for life," she explained. As I looked at her, and idea so fantastic came into my brain that I thought I must be going insane. However, it would not be dislodged, and I kept thinking that it might possibly be worked out.

I wasn't going to tell Joan about it, for she apparently knew nothing of her stepfather's personal affairs. If the plan was put through it would have to be put through by poor little me. If anything happened to make things go wrong, I would probably be arrested and sent to prison instead of Barry Cornwall.

"What shall I do, Judy? What shall I do?" Joan moaned and I realized that I had been silent for a long time. "Well, if I were you I would go for a little ride and take Judy Dean home. Then I would come back and go to bed. You have until tomorrow night, you know."

"Only until tomorrow, Judy—" Joan whispered. "I realize now how amurdere feels who is facing execution a few hours hence."

"You mustn't feel that way, Joan. Why don't you know that whole butties have been won in much less time than you have between now and tomorrow night?"

"Yes, dear, but they have also been lost. We always talk about the winners in the battle, but there must be always the vanquished as well, you know."

"Don't feel that way, dear. It will all come out right. I am sure it will." Joan turned to me almost with anger.

"Please don't talk to me if you must preach that Pollyanna stuff. I don't think I can hear it just now."

"It is horrible business, Judy, this trading on human trust or the hypocritical stimulation of human love. Everyone in this city who knows Joan Meredith probably thinks she is the most to be envied girl in the world. Anyone of them when my name is mentioned knows that I am the richest girl in the city, and yet tonight you have seen that none is as poor as I."

"Judy, I can see no way out of this, but to die."

I took Joan Meredith in my arms and held her tightly. With a moan she nestled against me and half whispered:

"What shall I do?" When she again asked me that question, again that fantastic idea came into my head.

"I don't know my dear, what to say to you. But I do know that God is not going to let you be sacrificed in this way to the greed of men. I think if I were you I wouldn't give up. You know nothing is lost until it is lost."

"You give me a lot of courage, my dear Judy. But are you sure you understand that I must have fifty thousand dollars before tomorrow night?"

"Yes," I said slowly. "I understand perfectly."

Then, because I wanted to comfort her a little, I said:

"If you think of nothing better, I

have a foolish plan whereby you may get it."

I never saw a face so transfigured as was that of Joan Meredith's. "Have you, Judy?" she asked with eagerness.

She seemed perfectly sure that I would take care of it. She was so used to being protected and cared for, she didn't even ask me how I was going to do it, for which I was very glad. "I think, dear," I said, "that I will go now and see what I can do for you. It won't do us any good to stay here thinking about it. If you don't want to come with me, perhaps you had better find an exciting novel and try to read yourself to sleep."

I wanted to laugh as I said that I know if anyone had said that to me I would have felt as though that person had given me a piece of gum to chew on whenever I was starving. She, however, took it all in good faith and called up the car.

I was really glad when I saw that Joan was sending me home with the same formality with which she brought me out. The same two men were on the front seat of the town car. They were great big fellows and I felt that I was safe in their hands. Yet I was glad when Joan decided at the last moment to ride into town with me.

"I am too nervous to sleep, dear. The ride will do me good," she said as she stepped into the car without hat or wrap. Neither of us said very much during the ride.

As we drove down Michigan boulevard we passed Jerry. For some reason our chauffeur slowed up, but Jerry's car passed us so hurriedly I was not sure that he recognized me. From that glimpse I had of him, however, I knew he was scouting around waiting for me.

# ELK BOWLERS START 1926-27 SEASON FRIDAY

## Twelve Teams Of Six Men Will Roll Weekly Battles For Lodge Kegling Title

### New System Of Dropping Low Man Each Week Gives Extra Bowler Chance

Members of the Elk bowling league start their 1926-27 season Friday evening at the Elk alleys when six teams take the drives at 7 o'clock. The league teams will roll every Friday evening at 7 and 9 o'clock. So many Elk bowlers desired to take part in the activity this year that it was necessary to place six men on a team in spite of the increase from eight to twelve teams. This means 72 men will take part in the loop.

With the six men on a squad, the low man each week lays off the following week unless there is an absentee in which case the extra man comes in handy. The league this year has adopted names of fish for its teams. The opening nights schedule Friday evening brings the Pickeral and Pike teams together. The Whales and Sardines, the Bullheads and Trout, the Carp and Sturgeon, the Muskies and Perch and the Bass and Salmon. Bowling will be on a 50 per cent handicap basis the same as last year.

The lineups of the teams follow: Muskies—A. A. Gritzmacher, captain, Henry Nolan, Will Fries, Frank Fries, W. J. Frawley, Ralph Gee, Perch—Charles Henderson, captain, F. Kranhold, Herman Gotsch, L. Powers, Al Roehna, Charles Hornbeck.

Whales—Clarence Currie, captain, F. Johnston, F. Gresson, Kurt Koletzke, William Jacobson, J. H. Balliet, Sardines—Walter Schultz, captain, Oscar Kuntz, N. Weber, R. Bauer, S. Balliet, Joseph Schultz.

Bullheads—George Ward, captain, R. W. Getchow, Fred Woelz, J. Schweltzer, Peter Berringer, W. E. O'Keefe.

Trout—Walter Plaman, captain, George Schommer, Peter Delain, J. Hamm, Lester Versteeg, H. Brinkman.

Carp—L. Keller, captain, Henry Mark, T. J. Long, H. Leonard, F. Helritz, J. Monaghan.

Sturgeon—F. Hammond, captain, S. D. Balliet, C. A. Green, D. P. Steinberg, Lotmar Graef, L. Rechner.

Pickeral—A. E. Adelt, captain, W. Konrad, Joseph Plank, H. P. Kelly, George Woelz, Joseph Langenberg.

Pike—F. V. Heimerman, captain, Seymour Gmeiner, H. DeBauer, G. Schmidt, T. Heid, W. Strassburger.

Bass—D. Jacobson, captain, J. Slupuro, A. Lauthenschlager, E. Kiloren, P. Sell, W. Vaughn.

Salmon—D. Smith, captain, D. R. Meyer, G. Evans, P. Abendroth, J. Neller, J. Brandt.

The schedule for the season follows: FIRST ROUND Oct. 1—Pike vs Pickeral; Whales vs Sardines; Bullhead vs Trout; Carp vs Sturgeon; Muskie vs Perch; Bass vs Salmon.

Oct. 8—Muskie vs Salmon; Whales vs Perch; Carp vs Trout; Sardines vs Bullhead; Sturgeon vs Pickeral; Pike vs Bass.

Oct. 15—Muskie vs Pike; Sturgeon vs Bass; Whales vs Salmon; Perch vs Bullheads; Sardines vs Carp; Trout vs Pickeral.

Oct. 22—Perch vs Carp; Sardine vs Pickeral; Trout vs Bass; Muskie vs Sturgeon; Bullhead vs Salmon; Pike vs Whale.

Oct. 29—Bullhead vs Pike; Carp vs Salmon; Whale vs Sturgeon; Muskie vs Trout; Pickeral vs Perch; Sardine vs Bass.

Nov. 5—Muskie vs Sardine; Perch vs Bass; Whale vs Trout; Bullhead vs Sturgeon; Carp vs Pike; Pickeral vs Salmon.

Nov. 12—Bullhead vs Carp; Pike vs Salmon; Muskie vs Whale; Trout vs Sturgeon; Pickeral vs Bass; Perch vs Sardine.

Nov. 19—Muskie vs Bullhead; Whale vs Bass; Carp vs Pickeral; Perch vs Trout; Sardine vs Pike; Sturgeon vs Trout.

Nov. 26—Perch vs Sturgeon; Trout vs Pike; Sardines vs Salmon; Muskie vs Carp; Bullhead vs Bass; Whale vs Pickeral.

Dec. 3—Sardine vs Sturgeon; Carp vs Bass; Perch vs Pike; Whale vs Trout.

## Football Captains

### DOYLE HARMON Wisconsin

Madison—Football prospects at Wisconsin are fairly rosy this fall. Coach George Little has a big bunch of lettermen back, as well as some likely looking material from the 1925 frosh eleven. The Badgers have lost Steve Polaski, last year's leader, and Leo Harmon among others but still have boys like Doyle Harmon, Crofoot, Barnum, Kreutz and McGivern.

Doyle Harmon is captain of the 1926 aggregation. He's a veteran of three years and plays in the backfield. Harmon is fast, a clever passer and a heady player. He'll bear the brunt of the work in back of the line when the Badgers have the ball.

Harmon also rates a strong fellow on the defense. He's a deadly tackler and has an uncanny way of intercepting forward passes just at a time when breaking up the foe's attack counts most.

## STARS OF MARQUETTE GRID MACHINE

CAPT. CRATNE BLOCKING "BIG" KELLY.

Here are some action shots showing that Coach Frank J. Murray's Marquette university football squad has been working hard on its island camp at Lake Beulah, to prepare for the game here Saturday, Oct. 2, with Lawrence.

At the left is a shot of Capt. Donald Cratne, the Marquette center from Antigo, charging into Jerry Kelly, a 200-pound tackle from Chicago. This was typical of the heavy work given the Hilltop forwards by Line Coach Fitzgerald the first few days. Every candidate for the line, like Kelly, took his turn at facing all the other candidates in this charging practice.

Joe Leary, a splendid plunging fullback and aerial artist from Janesville, is pictured at the right. Leary will be playing his second year on the Golden Avalanche and is shown here getting away a lengthy kick. Officials who handled Marquette games last fall asserted his form in kicking ranked with the best in the middle-west.

## Badger Normals Start Grid Season Saturday

Madison—Eight football teams in the Wisconsin state normal school conference have nearly a score of conference games on their schedules this season. The complete schedules of two teams, Whitewater and Stevens Point, were not available Tuesday.

The normal schools will open their seasons next Saturday when most of them play preliminary games. Two, Eau Claire and Superior, already have played their curtain-raiser, the former playing St. Cloud, (Minn.) Normal and the latter, Hibbing (Minn.) Junior College last Saturday.

The schedules for the season follow: Oct. 2—Eau Claire Normal vs. Port Snelling at Eau Claire; Milwaukee vs. Marquette Freshmen at Milwaukee; Superior vs. Virginia (Minn.) Junior College last Saturday.

## DOWNER EXPECTS MARQUETTE WIN

### Milwaukee Sport Editor Says Green Team Has Slight Margin Over Blue "Vets"

George Downer, sports editor of the Milwaukee Sentinel expects Marquette to beat Lawrence Saturday by a slight margin though he has not seen the Hilltoppers in action. He says that ordinarily the Golden Avalanche would swamp the Blues but this year Marquette has a green team compared to Catlin's vets. Here's the dope taken from his column, "Downer Says."

"Marquette will journey to Appleton on Saturday to renew football relations with Lawrence after almost a ten year lull. Ordinarily this game would be regarded as just a seasonably stiff workout for the Hilltoppers, but conditions this year may result in its proving a real battle. Coach Murray, at Marquette, has lost fourteen letter men. Of last year's sturdy line he has only two regulars back, Capt. Craine, center and Kampine, a guard. Later in the season, Marquette will be strong, but it would seem natural to expect that they will develop slowly, as new teams usually do. For this reason, Saturday's game at Appleton may approximate an even contest. Mark Catlin, Lawrence coach, has eight letter men and some promising new material. We rather expect, at this time, without having seen the Marquette squad in regular scrimmage, to see them win on Saturday, but by a small score."

## LAABS, CRACK GUARD, LOST TO BELOIT MEN

Beloit—(Special)—Beloit college football prospects fell Monday when it was learned that Budd Laabs, veteran guard, had quit school. Laabs will work this year and enter Wisconsin next fall. The loss of this lineman leaves Coach Bohler with but one veteran forward from the 1925 midwest championship eleven. Darling, center, may be shifted to fill the vacancy left by Laabs.

## VALLEY ALUMNI OF M. U. BUY 200 DUCATS TO GAME

Marquette alumni and fans of the Fox river valley, especially of Green Bay, purchased a block of 200 tickets for the M. U.-Lawrence game here Saturday, according to Fred Treaslee, Blue athletic manager. The purchase was made Monday. Marquette alumni of Appleton and vicinity who still desire pastebards should get in touch with R. W. Mahoney. Mr. Mahoney has reserved a number of tickets at Basing's Sport shop.

## BLUE WARRIORS SHOW STRENGTH IN SCRIMMAGES

### Backfield Starts Week by Ripping Big Holes in Heavy Freshman Line

Crashing the heavy freshman line for gain after gain on practically every type of play attempted. Coach Mark Catlin's Lawrence college grid-ers opened the final week of practice for the Marquette game with a successful scrimmage Monday afternoon. All of the Blue backs appeared to be in good form and with the exception of the center the linemen all appeared to be fixtures at their jobs. The Blue rear wall displayed plenty of drive.

Johnson's knee injury bothered him with the result that Weinkauf and Hipke played at the passing job. Johnson was given a try at guard and looked good there. Hipke, took center when Harry Hilton arrived at the field to take his first workout at the field. Johnson played this position with the 1925 frosh, but had not returned to the team this year. It is probable that Weinkauf and Johnson will try the center job, with Hipke jumping in at the position needs strengthening. Hilton and Bayer will fill in at Hipke's end.

In an effort to get coordination in the rear wall it was shifted considerably and finally was working smoothly. Bloomer called signals most of the afternoon with Heldeman second in line. Barrell and Briese alternated at fullback. Dreher also got a crack at this job. At the half Barrell, Briese and the reliable Nason performed. The work of Hipke and Jesup, giant ends, in shooting passes and nabbing the pigskin featured the scrimmage. The best backfield combine consisted of Nason, Briese and Barrell with Bloomer of Heldeman running the squad.

Chicago—Willie Davis, Charleroi, Pa., beat Ernie Peters, Chicago (10.)

## CANCEL 2-GAME SERIES WITH MILWAUKEE BREW

Unable to come to a signed agreement for the two-game series with the Milwaukee Brewers, Manager C. O. Baetz of the Appleton Fox River Valley League team, announced Tuesday that the games will be cancelled. The title were carried for Saturday and Sunday at Brandt park. Manager Baetz already was lining up an all-star valley team including Les Smith of Ottumwa, Squaw Pocom, Hackbart of Delkosh, Clusman, Green Bal, Farin, Fond du Lac, and others. The two managements were unable to come to terms.

## Fiery-Topped Trio Plays Big Role At Alabama U.

University, Ala.—Three fiery-topped youngsters will have important roles with the Crimson Tide of Alabama this fall.

One, probably the most important of the lot, will be Captain "Red" Barnes, a halfback. Tolbert "Red" Brown, a brother of the famous Johnny Mack Brown of last year's team, is going to be either a regular halfback or an end again this year. The third, while not a player is yet pretty important at Alabama, is Manager "Red" Joyce.

These three will be the only red-headed youngsters around Wallace Wade at Alabama this season, but the Crimson mentor thinks quite a bit of them. Barnes and Brown are hair backs that give joy to a coach's heart, and Joyce is that type of a student-manager who has the head-gears, the kidney pads, the tape, water and everything right there when the call comes for it.

Because of the fact that Pooley Herbert and Mack Brown, outstanding backs last year, were in the line light most of the time, Captain Barnes did not receive the credit due him. He is a fast-stepping youngster, a good punter, and may develop into a capable passer this season. His favorite play is a delayed buck on a corkscrew turn.

This will be his fourth and last season with Alabama and critics are already stamping him, even before the season starts, as one of the great backs of this fall. All things taken into consideration.

Brown played end last season for Alabama except in cases where his lack of weight proved too much of a handicap to Alabama. With several good backs missing, Coach Wade intends using him in the backfield this season. He played as a back in his prep school days and while a freshman at Alabama and will need very little polishing to make the grade as a varsity man. His older brother was, too, but Tolbert is just as speedy, if not more so. Whether he can bend and twist as Johnny Mack did is another question.

Of course, Joyce will never enter into any lineups, but folks can tell whether he is doing his job right and how much he is helping the cause alone by the record the Crimson Tide makes this year.

The problems which arise in the teaching of this course were considered especially by the teachers.

### STATE WATER BOARD URGED

Commissioner Urges State Study of Stream Pollution

Madison—Creation of a commission to take charge of all problems relating to the pollution of surface waters in Wisconsin and its effects on aquatic life, is proposed by Adolph Kanneberg, member of the state railroad commission. The measure was advanced by Mr. Kanneberg in an address before the Lake Michigan sanitation congress in Racine.

This commission would consist of one member of the railroad commission, the conservation commissioner, the state chief engineer, the state sanitary engineer and the secretary of the state board of health. Under its jurisdiction would be placed all problems related to the pollution of surface waters, especially pollution that destroy or drive out fish and aquatic life.

Mr. Kanneberg hopes that similar boards will be created in Indiana, Michigan and Illinois, with like functions. Under his plan, the sanitary engineer will be the executive officer of the board, to enforce its orders.

In the board will be vested authority to investigate all pollution and to order the installation of treatment plants where practical methods of treatment are known, to compel the study of the problem to discover practical methods in cases in which no practical methods are known. In these activities and studies, the board would cooperate with other states.

The board would have the right to accept funds from industries for experimental work. Once each month, in open session, the public could give information, or lodge complaints.

**SCHOLZ FUNERAL**  
Funeral services for T. C. Scholz, 937 E. Franklin-st., who died Sunday afternoon from the home with the Rev. T. J. Sauer, pastor of St. Paul Lutheran church in charge. Interment will be made at Riverside cemetery.

**FRANK MEYER**  
Frank Meyer, 71, died early Tuesday morning at his home at 932 W. Harvard-st. He is survived by five daughters, Mrs. Emil Fischer of Hortonville, Mrs. Robert Daugherty, Mrs. Fabian Wautlet of Appleton, Elizabeth and Catherine of Appleton; three sons, Joseph of Minneapolis, Frank of Wausau and Nicholas of Appleton. Twenty grandchildren and one great grandchild also survive. The funeral will be held at 9 o'clock Friday morning at St. Joseph church. Interment will be in St. Joseph cemetery.

**SCHOOL FUNERAL**  
The body of William School of Oneida who is believed to have been murdered sometime Sunday by Steve Gaunt, had been taken to the home of Joseph Houle at Freedom. The funeral services will be held at 10 o'clock Wednesday morning at St. Nicholas church at Freedom. Interment will be in St. Nicholas cemetery.

**KRAEMER FUNERAL**  
Funeral services for Valentine Kraemer, who died at Freedom last Thursday were held Monday morning at St. Nicholas church at Freedom. He is survived by three daughters, Miss Anna Kraemer of Appleton, Mrs. Emma Liddle of Oshkosh and Mrs. Mary Hoffert of Racine and one son, William Kraemer of Osborne.

**MRS. H. O. THOMAS**  
Mrs. H. O. Thomas, 85, former resident of New London for many years, died Monday at Bayfield at the home of her daughter, Mrs. A. G. Westphal. The body will be brought to New London Wednesday and will be buried there Wednesday afternoon. The Rev. I. E. Schlagenhauf of Neenah was in charge of the services.

**SACKETT FUNERAL**  
The funeral of H. Leslie Sackett, 74, of St. Paul, Minn., who died last Friday was held at Riverside cemetery at 2:30 Tuesday afternoon. Instead of an obituary as announced in the Monday Post-Crescent, the Rev. I. E. Schlagenhauf of Neenah was in charge of the services.

**BEG PARDON**

The notice of the death of Mrs. H. J. Hughes of Minneapolis in Tuesday's Post-Crescent was an error due to a misstatement received by the paper. Mrs. Hughes came to Appleton to attend a funeral.

**Child Breaks Arm**  
Ruth Barnes, daughter of Mrs. Henrietta Barnes; 539 E. South River-st., broke her arm about 2:30 Monday afternoon on the McKinley school grounds. The little girl was playing with a group of friends when she fell.

Appleton delegates to the Hi-Y club period at Camp Manitowish this summer will make their reports at the regular meeting of the local Hi-Y club Wednesday evening at the Y. M. C. A. Further discussion of the report of delegates at the club retreat also will take place. Routine business will complete the evening.

## DUCATS FOR BLUE MARQUETTE GAME GOING RAPIDLY

Battle Will Be Started About 2:45 Because of World's Series Opener

The capacity of the field will be taxed to the limit when Marquette and Lawrence clash on the gridiron here Saturday according to the advanced ticket sale as reported by Fred Troszke Blue athletic manager. Seating accommodations will be at a premium. The bleachers all are being reset this week and will be made as safe as possible. The same type of bleacher is being used as has been ordered for 52,000 additional seats for the Army-Navy game at Chicago.

The Lions club has taken a block of 25 tickets for its members. They will be placed in the Chamber of Commerce reserved section. Marquette

The starting time of the football game has been changed from 2:30 to 2:45 to allow fans to see the first game of the world's series between the Yankees and Cardinals as played on the Post-Crescent Playograph on the Y. M. C. A. building. The diamond struggle will start about 1:15 by local time and probably will be over by 2:45 so that the change of time of the grid game fans can see both attractions in the same afternoon.

Supporters of the valley, ordered 200 additional tickets this week. They will be placed on the south bleachers which will be used primarily for M. U. Boosters. R. W. Mahoney of the Appleton County Paper Co. has charge of the section. All M. U. alumni desiring reservations in this section should get in touch with Mr. Mahoney.

Season tickets, numbered serially, are on sale at Basins' sport shop, at \$3.50 each. This will take care of admission to the five home games this fall.

Arrangements are being made to have the Appleton delegation of business men and the Chamber of Commerce march or ride to the field in a body. The parade will be headed by the 120th Field Artillery band and will form in the downtown district at 1:15. Toggles, canes and pennants will be distributed to the business men and the Lawrence delegation will bring up the rear of the parade. To avoid congestion tickets should be purchased before 10 o'clock Saturday morning.

Members of the Chamber of Commerce and their families may secure their tickets at Basins' Sport shop. Identification as members of the Chamber of Commerce will entitle purchasers to tickets for admission only and a reservation in the sections D, G and H North which are reserved for the group and civic organizations.

## GIBBONS WANTS CRACK AT CHAMPION TUNNEY

St. Paul, Minn.—(AP)—A chance to wipe out the stain of the only knock-out ever scored over him, that by Gene Tunney, is wanted by Tommy Gibbons of St. Paul.

Gibbons, who was home here Tuesday, after witnessing the Tunney-Dempsey fight at Philadelphia last week, said he desires to square accounts with the new heavyweight champion.

Since he retired from the ring in June 1925 when he was knocked out by Tunney, Gibbons has led an active outdoor life and is in good physical condition. A little hard work is all that is needed to round him into fighting trim.

## BERNICE WALL PLACES IN NATIONAL TOURNEY

Haverford, Pa.—(AP)—Chicago girls are offering formidable competition for the Women's National Golf championship which Miss Glenna Collett of Providence, R. I., is defending at the Merion Cricket club.

Of thirty-two players to qualify for Tuesday's first round of match play eight were from clubs in the Chicago district. There were 127 starters.

Miss Collett's admirers felt that her winning of the qualifying medal with an 81 showed her capable of holding her title.

First round matches include: Bernice Wall, Oshkosh, Wis., vs. Mrs. H. A. Jackson, Greenwich, Conn. Glenna Collett, Providence, vs. Mrs. O. S. Hill, Kansas City.

## MINUS AN ARM

HARLAND EASTWOOD

Loss of one arm, and the right at that, isn't going to keep Harland Eastwood, student at Galileo high school, San Francisco, from playing football. Harland is a quarterback and is one of the most promising players on the squad. He played a year at Queen Anne high, Seattle, before coming to San Francisco. Galileo expects much of Eastwood this fall despite the big handicap the boy plays under.

## TED LYONS HAD BEST SEASON A YEAR AGO

Ted Lyons, White Sox hurler, who recently turned in a no-hit, no-run game against the Red Sox, had the best year of his major league career in 1925.

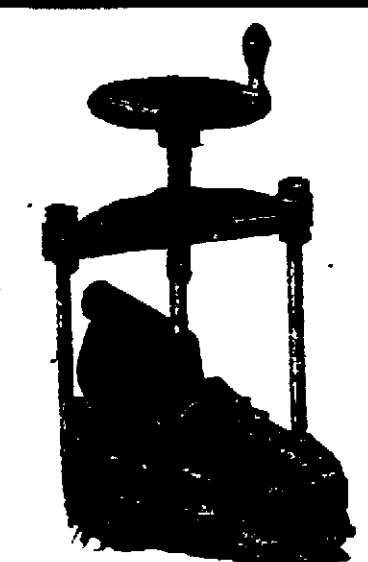

Lyons worked 43 frays that campaign, winning 21 and losing 11. He was one of the few big time hurlers to reach the 20-game class in victories. Ted just missed getting a no-hit tilt last year. Veach of Washington, going to bat as a pinch-hitter in the ninth with two out spoiling Lyons' record by poking out a safety.

Lyons before coming to Chicago in 1923 starred with Baylor University getting his start around Texas college diamonds.

## NEW MACHINERY

has just been installed in our shop, for the purpose of cementing soles. In the past most repair men have nailed or sewed on soles. We have taken a stride toward progress, and purchased this machine to give you better workmanship and wear.

Quality Materials Used.  
All Work Guaranteed.  
Quality Work Only.

Cementing by hand is out of date. This machine does it quicker and better. In fact it makes the shoes look almost as good as new. The soles especially look as though they just came out of the factory.

We will call for and deliver your repair work. And remember that there is no advance in prices. It will cost you no more to have your shoes rebuilt here by this up-to-date method than by the old way.

## BADGER CAGEMEN HAVE HARD CARD

Place Irish, Syracuse on Schedule in Fight for National Title

Dec. 17—Franklin College at Madison (tentative.)

Jan. 8—Indiana at Madison.

Jan. 10—Ohio State at Madison.

Jan. 15—Northwestern at Evanston.

Jan. 17—Chicago at Chicago.

Jan. 22—Northwestern at Madison.

Feb. 5—Notre Dame at Madison.

Feb. 12—Chicago at Madison.

Feb. 19—Ohio State at Columbus.

Feb. 22—Iowa at Madison.

Feb. 26—Indiana at Bloomington.

Mar. 5—Illinois at Urbana.

Mar. 11—Iowa at Iowa City.

One glance at the above slate will convince all Basketball fans that Coach Walter Meanwell's Badger five has an unusually stiff grand ahead. In arranging what is easily the hardest schedule ever played by a Wisconsin quintette, Coach Meanwell has in mind the possibility of making a bid for National honors. In addition to twelve Big Ten engagements, the Cardinals Basketeers will meet Syracuse University, 1925-26 Eastern champs, and Notre Dame, who were bidders for the western title, with victories to their credit over many conference teams.

The other three non-conference tilts may not be classed as practice games. Wabash, Franklin and Marquette are of the calibre of many western conference fives, and will force the Badger combination to the limit. Last season's experience in the Big Ten has proven that the days of easy games have passed forever. Any of the six outfits of Wisconsin's chart may be title contenders, and with such a lineup of every encounter of the season.

## SIX LEAGUES ON ELK ALLEYS THIS SEASON

League bowling at the Elk alleys was started Monday evening when the K. C. plimmen took the drives. Six leagues will make use of the alleys this year, rolling every evening but Tuesday, Saturday and Sunday. On Monday the K. C. league will be in action, on Wednesday the Lutheran and Traction Co. loops will roll their games, on Thursday the Legion and Forester leagues will take the drives and on Friday the Elk loop will try the maples.

## Dave's Dots And Dashes

With one exception our dope on Saturday's games turned out right except for scores and as we said before that's the problem, getting the scores near right. We're glad to say we pulled a boner on the Shawano-Appleton game, though we expected a win. We thought Kaukauna was about one touchdown better than Oshkosh and were about right though. An Appleton fan had the score about 13-0. He had Marquette high beating Marinette, but he doesn't know Marinette. As it was the Purple added two touchdowns to our prediction. We had the score about right in the Fondy-Wyland game with the sides twisted. This was the upset of the weekend as everyone had Fondy winning at least 9-0. Manitowoc, Appleton's next foe, beat Kewaunee, 20-0.

Had Oshkosh decided to open up early in the game the Kaw crew might have lost, according to spectators. In the last half the Sawdusters started a pass attack which netted a touchdown and brought the ball to the five-yard stripe again before it was intercepted by Kaukauna with three minutes to play. The attack started too late.

Appleton has some keen plays which were not used Saturday. If the Orange keeps up its work at straight football the plays will not be needed often, the work is so effective. Johnston ran wild through holes provided by Getschow and Pfeifferle and one old Lawrence star on the field remarked that he would gladden the heart of a college coach—if he can keep up the pace against the hard teams.

It was no real test of the Orange-men though their work was great. Next week Manitowoc, one of the toughest teams up in the 1926 conference is combination at its home. If that obstacle, and believe us its a big one, can be removed things will be ready for a big season. Danny Peppard, starball-around athlete cavorts in the

Ship rear wall. Last year though the ships made only a fair showing he was placed on every all-conference grid squad.

Fishleigh, Stevens Point flash, is another good man while Pat Mohardt, Johnny's kid brother and John Cavase was slated for Michigan and Zulu Mulder for Notre Dame, but it looks like Wisconsin is beginning to let her boys "back" since Little took charge.

As usual the Fox river valley furnishes plenty of material to the Badger fresh grid squad. Fondy leads the list with five players out for the squad of 250. Included in the valley list are four of its classiest backs, Del Hutchins, Fondy Art Gershmehl, Sheboygan; Hugh Erickson, Marinette;

Dave Zulu Mulder, Green Bay. Zulu Mulder was called the "Red Grange" of the valley conference when he lead East high to the title last year. George Boyd, star Kaukauna center of last year, and Grill Marinette end are in the list.

### Prisoner Escapes

Donald Preblen, 20 years old, 5 feet 10 inches tall, dark complexioned and wearing a tan coat, brown trousers and a nondescript cap, escaped Monday night from the Winnebago-co. workhouse, according to notice received by the Appleton police department. Officers are urged to be on the watch for Preblen.
